MOP 2 MANUAL OF CONDUCT

MOP 2-1 CONFIDENTIALITY

Incidents that occur on campus involving students, staff, or visitors must be kept confidential. In many instances, confidentiality is not only expected, but also **legally required**. All information regarding individuals, incidents, types of incidents, details of incidents, investigations that are either in progress or in the past and information on specific Campus Safety operations (such as parking enforcement times, bait bike operations and locations, etc.) is confidential and shall not be shared with anyone outside of the Calvin University Campus Safety Department, police, fire, or EMS agency unless authorized. Professionalism requires that certain information be kept confidential even from friends. Failure to maintain confidentiality regarding incidents is grounds for disciplinary action, up to and including termination.

MOP 2-2 HARASSMENT

Calvin University has a strict policy on harassment. This policy explicitly states the university community's commitment to treat all members with respect and dignity as image bearers of the Creator.

Any Campus Safety employee who feels that they have been the victim of sexual, racial, or other harassment while employed with the Campus Safety Department, should direct their complaint to the Director, Assistant Director, Dispatch Manager, or the Human Resources Department as appropriate, for proper follow-up.

MOP 2-3 DISPATCH STAFF MEETINGS AND TRAINING

Dispatch team meetings may be scheduled periodically. The purpose of these meetings is to further the effectiveness of the Department. Your attendance may be mandatory depending on the nature of the meeting. Personnel are paid for the time spent at a meeting.

Other training may be scheduled as appropriate. Team meetings and trainings are important and should not be minimized. If you cannot attend a scheduled team meeting or training, you must notify your Dispatch Supervisor by email, stating the reason you cannot attend. Being absent from any scheduled team meeting without prior authorization may result in disciplinary action.

MOP 2-4 EMPLOYEE HANDBOOK

All student employees of the Campus Safety Department shall comply with all rules and regulations of Calvin University. Student employees are responsible for reading and following the Calvin University Student Employment Manual. This **online document** can be located on Calvin's Career Center home page under the Student Employment link. As a student employee of Campus Safety, you are expected to set an example for others at Calvin University. Failure to comply with the Student Employment Manual rules and regulations may result in disciplinary action up to dismissal from employment.

The Student Employment Manual is located online at: [Student Employment – Career Center | Calvin University](#)

MOP 2 MANUAL OF CONDUCT

MOP 2-5 GENERAL RULES AND RESPONSIBILITIES

The rules in this Manual of Conduct are created to direct the conduct of all Campus Safety employees. All employees shall conduct departmental business pursuant to the chain of command unless exempted by orders from proper authority.

The duties assigned to the Student Dispatcher position are described in the formal Campus Safety Student Dispatcher job description. All duties will be fully discharged in compliance with departmental rules, orders, procedures, and directives by supervisory staff. All employees shall comply with all rules, orders, and procedures of Calvin University and the Campus Safety Department.

All dispatch employees shall review the Dispatch Manual of Procedures (MOP) and will be held responsible for the reading and knowledge thereof.

Employees will observe and obey all Federal, State, and local laws. Employees will also obey all lawful directives of their supervisors pursuant to Federal, State, or local laws.

Upon observing or otherwise becoming aware of a violation of the rules, directives, and procedures of Calvin University or the Campus Safety Department, employees shall report the violation to the Dispatch Manager, Director, or Assistant Director of Campus Safety.

Employees shall not obey any directive that requires the commission of an illegal act. If an employee possesses doubt about the legality of a directive, they may seek a clarification of the directive from a higher authority.

Employees who do not understand their duties or responsibilities shall immediately refer to the appropriate rules and/or procedures of Calvin University and the Campus Safety Department and/or shall consult their immediate supervisor for clarification and explanation.

MOP 2-6 DISPATCHER GUIDELINES

1. ***No friends or guests are allowed into the dispatch area for any extended period.*** A friend/roommate dropping off a meal or forgotten item is fine, but no one is allowed to stay in the office unless specific permission has been given. Only Campus Safety employees should be in the dispatch area.
2. ***Do not leave the dispatch area.*** If you need to leave the Dispatch area, please notify the Front Desk during regular business hours or all on-duty officers after hours. If no one is in the office to monitor Dispatch, take the cell phone and hand-held radio with you.
3. ***Be on time.*** You are to arrive **five to ten minutes** before your shift begins so that you can be briefed before the on-duty dispatcher leaves. Dispatch is a 24-7 workstation. Being on time for all your shifts is important for the effective and efficient functioning of Dispatch. If you are delayed on your way into the office (car trouble, traffic accident, anything at all) call Dispatch immediately and let the on-duty dispatcher know that you are enroute, and when you expect to arrive.

MOP 2 MANUAL OF CONDUCT

4. **Calling in sick.** It is important that you give timely notice if you are ill and cannot come into work. Once you have determined that you cannot come in, you must immediately:
 - Make arrangements, if possible, for another dispatcher to cover your shift.
 - Contact the Dispatch Manager and/or the Assistant Director.
 - Put your shift on the trade board.
 - Contact the on-duty dispatcher if your shift immediately follows the present shift.
 - If you already have a replacement, let the Dispatch Manager know. If the Dispatch Manager is not available, contact the Assistant Director or work with the current dispatcher to find a replacement.
5. **Scheduling.** “When To Work” is the scheduling program for dispatchers. It is used for online shift posting and trading. Once a schedule is posted dispatchers should make their own switches to accommodate any changes unless it is a permanent change that needs to be made. The Dispatch Manager must approve all trades and drops. Contact the Dispatch Manager if you are having long-term scheduling issues.
6. **Submit timecards after work.** Online timecards should be filled out after *each* shift. The work week begins on Sunday and ends on Saturday. You and you alone are responsible for the accuracy of your payroll records. **If your timecard is not submitted on time, the system is closed for editing for a few days. You will then be able to enter your hours online, and you will be paid in the subsequent pay period.**
7. **Night shifts are still work.** Sleeping on the job is forbidden. If you are caught sleeping at work, you will face disciplinary action that may result in your dismissal.
8. **After business hours.** When the front desk is closed, the office door at the top of the stairs should remain closed and locked. Everyone who is allowed access to the building has card access or must be identified prior to entry. FedEx, UPS, and other deliveries are permitted to enter the lower door after hours.
9. **Calvin computers.** University PC’s may not be used to play games, chat online, play music/videos, or surf the web for non-work-related issues. The use of Dispatch computers for personal searches may result in disciplinary action. Records are maintained for all computer uses, including sites visited. CIT informs us of misuse or questionable site visits.
10. **Personal electronic devices.** Use of personal electronic devices, such as laptops, tablets, and cell phones, is permitted on a limited basis. Onsite dispatch responsibilities absolutely take priority over schoolwork and personal activity. When using electronic devices, earbuds in both ears is prohibited to assure awareness of alarms and radio communications. When listening to audio from music or video, the volume should be low enough that other office staff cannot hear it.
11. **Parking.** No parking by the Mail-Print building *during regular business hours*. Vehicles must be parked in Lot 8.
12. **Course work and reading materials.** Course work or reading material may be brought to the office to work on if it does not interfere with dispatcher responsibilities. Work comes first!
13. **Watching monitors.** Dispatchers need to be aware of the monitors. Do not have your back turned completely away from Dispatch monitors.
14. **Kitchenette etiquette.** Any dishes, silverware, glasses, or mugs that you use during your shift need to be washed and put away before you leave the building. Do not leave these items in the sink. Label any items left in the fridge with your name and date.
15. **Work attire.** Work attire may be casual, but modest. Modest clothing includes tops that cover the chest and arms, are not tight-fitting or revealing, and avoid provocative prints or slogans.

MOP 2 MANUAL OF CONDUCT

MOP 2-7 INSUBORDINATION

Employees shall promptly obey any lawful directive of a supervisor. The failure or refusal of any employee to obey a directive from a supervisor or other designated authority shall be deemed insubordination.

Employees shall not assault or use disrespectful, insulting, threatening, insolent, or abusive language or gestures toward supervisors.

Employees shall not falsify any department records, reports, statements, or documents.

Employees shall not destroy, alter, or remove any departmental rule, directive, procedure, or general correspondence posted by management.

Employees shall not engage in any unapproved leave, slowdown, or unauthorized interruption of assigned duties.

No employee of the Department will publicly disparage or ridicule any lawful directive or procedure of the Department.

MOP 2-8 CARE AND HANDLING OF PROPERTY

Employees shall not destroy, tamper with, withhold, deface, remove, conceal, or convert to their own use or that of another, any departmental property, equipment, or evidence which employees come into possession of in the performance of their duties, or by reason of their positions as employees of the Department.

Property or evidence which has been discovered, gathered, or received in connection with departmental functions shall be promptly handled and processed in compliance with departmental rules, directives, and procedures.

Employees shall utilize department equipment only for purposes pursuant to departmental procedures and shall not, either willfully or negligently, abuse, damage, or lose departmental equipment.

Employees are responsible for the proper care of departmental property and equipment. Negligence resulting in damaged or lost property may subject responsible employees to reimbursement charges and/or disciplinary action up to and including termination.

Accidents involving departmental employees, property, and/or equipment must be reported pursuant to Calvin University and departmental procedures.

MOP 2 MANUAL OF CONDUCT

MOP 2-9 USE OF AND/OR POSSESSION OF DRUGS AND ALCOHOL ON DUTY

Employees shall not purchase, possess, and/or consume intoxicating beverages while on duty. Employees shall not appear for duty or be on duty while under the influence of intoxicants. Employees shall not have consumed intoxicants eight hours prior to the start of their shift. Employees shall not possess or use any controlled substance or prescription drugs, except when prescribed by a physician or dentist. Controlled substances which have been discovered, gathered, or received in connection with departmental functions shall be promptly handled and processed in compliance with departmental rules, directives, and procedures.

Employees shall notify their supervisor if they are using prescribed medication or a nonprescription drug that could interfere with their ability to perform their assigned duty in a safe and efficient manner.

When there exists reasonable suspicion regarding the fitness of employees for duty due to the use of drugs or alcohol, they shall be required to submit an appropriate chemical test pursuant to the directive of a supervisor.

MOP 2-10 COURTESY AND DEMEANOR

While performing their duties:

- Employees shall not express any prejudice words or gestures concerning race, national origin, religion, sexual orientation, physical or mental disability, or other personal characteristics.
- Employees shall not use or display profane, obscene, or other intentionally insulting or degrading language, gestures, or actions toward any other employee or person.
- Employees shall be courteous and tactful during the performance of their duties and shall promptly respond to all requests for services in compliance with departmental policies, directives, and procedures.
- Employees shall remain awake and alert while on duty.

MOP 2-11 COMPETENCE TO PERFORM DUTY

Employees shall professionally and competently perform their assigned duties and the responsibilities of their positions. Employees shall perform their duties in a manner that is compliant with the highest standards of efficiency and the goals of the Department.

Unsatisfactory performance may be demonstrated by:

- a. Lack of knowledge of university rules and regulations.
- b. Lack of knowledge of the policies, directives, and procedures of the department.
- c. Unwillingness or inability to perform assigned tasks.
- d. Failure to conform to work standards established for a position.
- e. Failure to take appropriate action to a criminal act or disorder requiring a response.
- f. The neglect of duty.
- g. Absent without leave.
- h. Lack of physical, emotional, or intellectual abilities to perform required duties.
- i. Repeated performance evaluations that do not meet or exceed departmental standards.
- j. Repeated violations of departmental policies, orders, or procedures.

MOP 2 MANUAL OF CONDUCT

MOP 2-12 DILIGENT PERFORMANCE OF DUTY

Employees shall always perform assigned duties in a diligent and competent manner.

Employees shall not engage in "horseplay" or any other activities which interferes with their or other employees' performance of duty or causes unsafe or unsanitary conditions.

Employees shall report any suspected criminal activity in accordance with the Clery Act.

Employees shall completely and accurately record all required information pertinent to their duties including all occurrences of importance observed during their shift.

Employees shall report any unsafe conditions to their supervisor and/or to the Environmental Health and Safety officer as appropriate.

MOP 2-13 REPORTING FOR DUTY

Employees shall promptly report for all assignments at the time and place required by the assignment. They shall be physically and mentally prepared, and properly equipped.

MOP 2-14 ABSENCE FROM DUTY

Employees shall not be absent from duty without permission from their supervisor. Employees who are unable to report for duty shall verbally notify their supervisor as soon as possible and should make every effort to find another employee to cover their shift.

Employees shall not falsely report being sick or injured, or otherwise deceive or attempt to deceive any supervisor or the Department regarding the condition of their health.

MOP 2-15 NEGLECT OF DUTY

While on duty, employees shall not neglect or be inattentive to their assigned responsibilities. Employees shall assist any employee involved in an emergency or any other situation in which additional assistance would be critical to the successful performance of a departmental function or the safety of the employee or other persons.

MOP 2-16 UNBECOMING CONDUCT

Employees shall not conduct themselves in a manner which:

- a. Brings the Department into disrepute.
- b. Reflects unfavorably upon the employee as a member of the Department and impairs their ability to perform their job.
- c. Damages or affects the reputation of any employee of the Department.
- d. Impairs the operation or efficiency of the Department or any employee.

Employees shall not knowingly frequent any place wherein the law is regularly violated.

MOP 2 MANUAL OF CONDUCT

MOP 2-17 LEGAL PROCESSES BROUGHT BY OR AGAINST EMPLOYEES

All employees shall immediately report, in writing, to the Director of Campus Safety any criminal charges, court actions, or university disciplinary proceedings brought against them. Upon conclusion of any of the aforementioned actions, the employee involved shall notify the Director of Campus Safety of the disposition of the matter within three (3) working days.

MOP 2-18 GIFTS AND GRATUITIES

Employees shall not accept financial compensation as a result of services rendered other than their wages paid by the University.

MOP 2-19 SAFER SPACES POLICY

Calvin University is committed to performing all our tasks as a caring and diverse community. Each person – faculty, staff, student, trustee, volunteer, visitor, contractor, and vendor – who has chosen to engage with the Calvin community thereby affirms a willingness to uphold the community's stated standards of conduct and ensure that Calvin University provides a safe environment for students, staff, faculty, and guests of the University.

Harassment, discrimination, and retaliation of any form are a violation of a person's rights, dignity, and integrity. Such acts debase the integrity of the educational process and work environment and are contrary to the mission and values of Calvin University. In response to any reported misconduct, the University will take appropriate steps to eliminate the misconduct, prevent its recurrence, and remedy its effects. The University will review and investigate all reports and provide for fair and impartial evaluation and resolution. Retaliation against a person who makes a good faith report of harassment or discrimination or anyone participating as a witness in an investigation or hearing is prohibited.

The purpose of this policy is to provide the Calvin University community with a set of behavioral standards, common understanding of definitions and key concepts, descriptions of prohibited conduct, and processes for submitting, investigating, and resolving reports. The policy is intended to protect and guide those who have been affected by harassment and discrimination whether as a reporting party, a responding party, or a third party.

This policy also identifies resources and support for all members of the University community, identifies appropriate administrators and describes their roles, provides information about how to make a report, and provides information about how a report will be evaluated and resolved. Supervisors may attempt to amicably resolve citizen complaints, but they shall not attempt to prevent or discourage any citizen from lodging a formal complaint against any employee or against the Department.

**Policy and addition information: <https://calvin.edu/offices-services/safer-spaces>
See MOP 7-19 (page 81) for specific Safer Spaces protocol.**

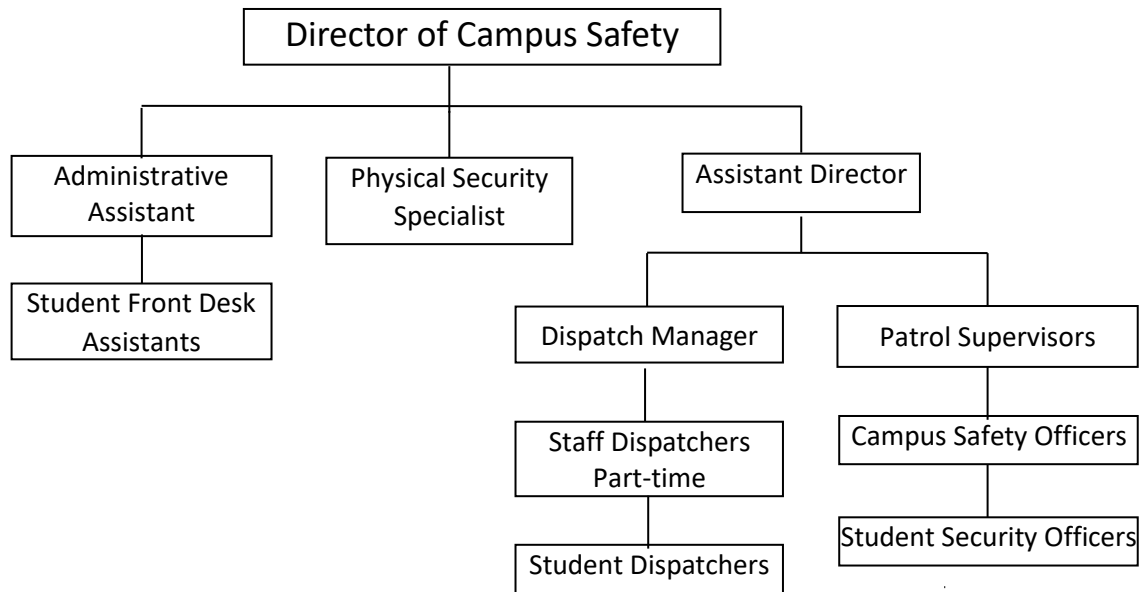

MOP 3 DEPARTMENT ORGANIZATION

MOP 3-1 MISSION STATEMENT

The Mission Statement of the Calvin University Campus Safety Department is to serve our community by promoting the mutual responsibility of campus safety. We will strive for a safe and well-ordered campus environment, effective communications, relevant education, and respectful service of the highest integrity.

MOP 3-2 ORGANIZATIONAL CHART

MOP 3-3 WRITTEN DIRECTIVES

Memorandums: can be used to revise or provide additions to procedures, provide information, and give directives regarding specific events or circumstances. All employees are responsible for signing that they have reviewed the memorandums.

E-mails: are written communication that are used to disseminate information, or directives to specific department employees. All dispatch employees should check the dispatch e-mail at the beginning of each shift and throughout their shift, as well as check their Calvin email daily for updates and/or important dispatch information.

White Board: should be used to inform dispatch employees of current **ongoing** issues occurring with doors, alarms, and cameras around campus, and any other important messages that need to be passed along.

MOP 3 DEPARTMENT ORGANIZATION

[Blank page for future Department Organization documentation]

MOP 4 COMMUNICATIONS

MOP 4-1 COMMUNICATIONS

FCC regulations require that all communications on our UHF radios be specifically business oriented. We share our radio frequency with other organizations. **Your communications can be heard over a wide area. Be professional on the radio. Personal conversations, indecent or obscene language and chit-chatting may disrupt communications of others and is against the law.** Use the telephone for lengthy messages, personal conversations, or highly sensitive messages since others are always listening. Our UHF radio is an indispensable tool in Campus Safety. Failure to follow FCC regulations could result in our license being revoked. If a violation notice is received by the university from the FCC for radio violations and a specific employee is responsible, disciplinary action will be taken.

RADIO:

Radio Communication:

- Initiate a transmission by indicating who you are and to whom you are calling, and wait for a response before relaying information, i.e. Dispatch: "Dispatch to 9905" Officer: "Dispatch go ahead" Dispatch: "9905 We have a".
- Relay direct information: Who/what/when/where/why. If lengthy explanations, complicated questions, or confidential information needs to be discussed, call the officer's cellphone.
- Utilize appropriate ten codes and phonetic alphabet: i.e. for a Michigan license plate of ABC1234 say, "MI plate Adam Baker Charles 1234."
- Emergency Information: **"Dispatch to all units...." and repeat information.** Give alarm description or call type, specific location, and incident description i.e. fire/intrusion alarms, AED, panic buttons, medicals, or any situation needing emergency response.
- Non-emergency Information: Dispatch a specific officer and give them an incident description, specific location, and pertinent information to the call, i.e. motorist assists/escort/building access.
- Radio Checks: Advise the officer how well their transmission came through, i.e. broken, quiet, loud and clear.
- Status Checks: request a status check from an officer if no update is received within a reasonable amount of time, i.e. if no update is given after a call for a medical or another high priority call.

MOP 4-2 CALL MANAGEMENT

Call Management is an effective way of prioritizing calls for service. Medical Emergencies and immediate threats to persons and property are the most urgent calls for service and shall be the first incidents responded to by officers and supervisors. Other calls for service such as incidents that occurred in the past, lockouts, motorist assists, and escorts are considered a lower priority. Officers will respond to those incidents only when there are no high priority calls waiting.

MOP 4 COMMUNICATIONS

MOP 4-3 RADIO IDENTIFICATION AND UNIT IDENTIFIERS

Units:	Description:
CS Dispatch	CS Office (Dispatch's police unit number is 9900).

MOP 4 COMMUNICATIONS

The following 10 CODES may be used:

10-3	"YES" - Affirmative		
10-4	OK, Acknowledged	10-39	Officer in Trouble/All units respond
10-7	On Break	10-56	Intoxicated subject
10-8	Off Break	10-66	Request Back-up
10-20	What is your location?	10-68	Bomb Threat
10-23	Arrived on scene	10-97	Suicide or Attempt
10-24	Clear of Assignment	10-99	Need Police
10-32	Weapon involved... Caution	10-100	Nature Call

MOP 5 ADMINISTRATIVE

MOP 5-1 START AND END OF SHIFT

It is the off-going Dispatcher's responsibility to provide a pass-down of information to the on-coming Dispatcher.

PROTOCOL FOR START OF SHIFT

1. Arrive 5-10 minutes early to receive pass-down information.
2. Work through the "Start of Shift Checklist." Add information and initial after each task is completed.
 - Name/Date/Shift Start Time
 - Log out of, then back onto CAD with your badge number and password (possibly "123456"). Select 'Campus Safety.'
 - Check to make sure current on-duty officers is correct.
 - Review emails pertinent to today. Look through previous emails. Check that it says 'All folders are up to date' at the bottom of Outlook.
 - Review events on campus by checking the Calendar on Calvin's website.
 - Check Green Escort clipboard for possible green escorts during your shift (day shift only).
 - Check cameras to insure that:
 - the correct set of cameras are displaying.
 - the two monitors are on "cycle view."
 - the settings are on "Live."
 - Check the weather monitor and notify officers of any severe weather approaching.
 - Check the White Boards
 - New Memos
 - New announcements
 - New Card Reader Work orders (Simon's Board)
 - New trouble smoke/fire alarms
 - Check Lenel alarm monitors for alarms in progress. Off-going dispatcher should advise the reason that a door alarm may still be active, or if an officer has been notified. Alarms not acknowledged now become your responsibility. Clear out old alarms no longer pertinent.
 - If working between 2200 and 0400, review ALL Lenel Maps to check the status of ALL card readers. Cross out times during your shift that you checked card reader status (2200, 0000, 0400). If a door is found to be open when it is supposed to be set to a different status, notify an officer, record it on the Door Change clipboard, and change the card reader status on Lenel as advised.
 - Restart all computers (*including second workstation*), on Sundays between 0400 -0800.
3. Check Card Watch: posted on the bulletin board
4. Verify that the radios (Computer 3-1) are on the correct channels (Campus Safety, All Call/Talk, Tactical)
5. Verify that the Dispatch cell phone and the hand-held radio are in dispatch. Check cell battery status and charge if necessary.

MOP 5 ADMINISTRATIVE

PROTOCOL FOR END OF SHIFT

1. Verify all emails are reviewed and responded to.
2. Review events, announcements, and high priority calls that will need to be passed on.
3. **Clear out acknowledged alarms that are no longer needed and put notes in all others.**
4. Provide pass-down:
 - Officers on duty
 - Pending CAD calls and alarms
 - Events currently going on or coming up
 - Pertinent information for high priority calls (medicals, suicide attempts, suspicious persons, missing persons, etc.)
 - Work orders entered.
 - Pertinent new white board information

MOP 5-2 WHITE BOARDS AND BULLETIN BOARDS

At the beginning of each shift, Dispatchers must check the white board for any current important information. Dispatchers are permitted to remove information from the whiteboard that is no longer valid.

White board information includes:

- New Memo: A new Memo will be indicated by the date the Memo was issued. Check the yellow Memo binder and change the date on the whiteboard as needed.
- Announcements: Any important information that is relevant to multiple shift times needs to be passed on during each shift change and noted on the whiteboard. Write in the date of relevancy and a brief description of the information. Erase out-of-date announcements as needed. **Use the white board...not sticky notes for announcements.**
- Trouble fire/smoke alarms: Know what might come up as false on monitor.
- Camera issues need to be listed under their respective headings on the whiteboard.
- 9902 work orders for issues relating to **card readers** need to be written on the smaller whiteboard (overflow on bigger white board). The date, building location, and brief description of the issue needs to be indicated along with a check mark indicating that 9902 was emailed about the issue. 9902 will erase the completed work orders.

Bulletin board information includes:

- Card Watch: If a Card Watch alert is programmed into Lenel the response protocol will be posted under the corresponding Card Watch alert 1 or 2. This information is confidential and should not be shared over the radio.
- Campus Safety Employee Information: Staff pictures, phone lists, and unit numbers will be posted on the bulletin board. Staff cell phone information should **not** be given out; it is for department use only.
- Schedules: A copy of the CSS/CSO schedule will be posted on the bulletin board.

MOP 5 ADMINISTRATIVE

MOP 5-3 PHONE COMMUNICATIONS

- **Calling an Extension on Campus**
 - Dial “6” then the last four digits.
- **Calling a Local Number**
 - Dial “1” + (Area code) + 7-digit number
- **Calling a Long-Distance Number**
 - Dial “1” + (Area code) + 7-digit number
- **Calling 911**
 - Use separate desktop phone labeled “CALL 911”. Pick up receiver and dial 911.
- **Transferring a Call**
 - Press the “transfer” button (the silhouette with the arrow next to it), then dial the extension or choose an extension from the speed dial list. When it rings, hit the transfer button again. You can now hang up.
- **Putting a Call on Hold**
 - Press the “Hold” button (the one with the two vertical lines). Note: On hold you cannot hear each other; they hear music. Press “Hold” to reconnect.
- **Put a Call on Mute**
 - Press the “Mute” button (the one with the mic with the line through it). Note: On mute you can hear them, but they cannot hear you. Press “Mute” to reconnect.
- **Review Call Log**
 - Press Settings (the cogged wheel), then select Recent.
- **Forward 3333 and 911 Calls to Cell (if leaving dispatch area)**
 - Press button next to “63333 – Campus Emergency” (number is highlighted)
 - Press “Forward all” (you will hear 2 beeps)
 - Dial dispatch extension (66452)
 - To remove forward, press button next to 63333, then “Forward off”
 - Repeat process for Calvin 911

MOP 5-4 RADIO TRANSMISSION RECORDINGS

Computer 3 Monitor 1 records all radio traffic. Recent radio transmissions can be replayed here by double-clicking on the transmission. Older radio transmission history can be accessed by:

- Click on “Archive”
- Highlight “Audio” icon only (i.e. click off “Emergency,” “Alert,” etc.)
- You can “Search” a specific call or click on the clock icon and choose “Custom Interval” for a search on a specific time. Then click “Search.”

MOP 5 ADMINISTRATIVE

MOP 5-5 CAD ENTRIES

CAD is a call record system used to keep officer's call logs, incident report information, and trespassing/caution information.

1. Putting Officers On/off Duty

- Check the 'Show off duty officers' box in upper left.
- Right click on the officer to put them on/off duty.
- Uncheck the 'Show off duty officers' box

2. When a new call comes in:

- Click "New Call" icon
- Double click officer(s) dispatched to call
- Time stamp Notes
- Complete rest additional information: Call source, location, specific location, initial call type, reporting person and phone number (if applicable).
- Add initial note. Utilize "add timestamp" before each additional note.

3. Clearing an Officer from a Call

- Click the 'Cleared' column to automatically generate a time.

MOP 5-6 E-MAILS SENT TO CAMPUS SAFETY DISPATCH

E-mail inbox receives both emergency (33333@calvin.edu) and non-emergency (dispatch@calvin.edu) emails.

1. Non-Emergency E-mails

- Non-emergency e-mails will appear with no tone.
- Read e-mails during shift.
- Relay information as needed (via whiteboard, binders, notify officers, etc.)
- Respond to the sender as needed.
- E-mail should be deleted out of the system once it has been addressed.

2. Emergency E-mails

- Audible tone is heard at dispatch when an emergency e-mail is received.
- Read immediately and notify officers if needed. Respond to sender. If possible and needed, request senders phone number of caller for additional information.
- E-mail should be deleted out of the system once it has been addressed.

MOP 5 ADMINISTRATIVE

MOP 5-7 INCIDENT CALL TYPES

ABDUCTION: forcefully taken/moved against their will

ACCIDENT – INJURIES: Motor vehicle accident with injuries (call GRPD)

ACCIDENT-MOTOR VEHICLE: Motor vehicle accident with no injuries (report taken)

ADMIN FOLLOW-UP: Taking/Writing a report at HQ

AGGRAVATED ASSAULT: violent physical attack to another person causing serious injury or by a weapon with the intent of causing serious physical injury or death.

ALARM RESPONSE: responding to any alarm (fire/smoke, panic, AED, door held open, card watch ...)

ALCOHOL OFFENSES: minors under the influence of alcohol or in possession of alcohol

ASSAULT: the unlawful physical attack by one person to another person

ASSAULT WEAPON: the unlawful physical attack or threat of physical attack by one person with a weapon to another person. NOTE: The difference between assault with a weapon and aggravated assault is the fact an individual can make a threat with a weapon without using it.

ASSIST DOOR/BUILDING ACCESS: unlocking/opening an area/building.

ASSIST OTHER AGENCY: working with or aiding another agency.

BLUE ESCORT: medical transport from anywhere to anywhere on campus

BOMB THREAT: threat of a bomb placed on or near campus.

BREAK: 10-7

BUILDING CHECK: walkthrough inside of building

BURGLARY: unlawful entry of a building or room with the intent to commit a theft or crime

UNIVERSITY RULE VIOLATION: violation of a university rule

DAMAGE TO PROPERTY: destruction/vandalism of school property

DATING / DOMESTIC VIOLENCE: physical/verbal violence between two individuals romantically involved or family members.

DEATH INVESTIGATION: investigation of a death on campus

DISORDERLY CONDUCT / PERSON: person(s) acting out, not following instructions/orders, creating a disturbance (similar to trouble with a person, either acceptable).

DRUG/NARCOTIC VIOLATIONS: being under the influence or in the possession of drugs/narcotics.

ESCORT: safety transfer of 2 or less individuals from specific pick up and drop off points on campus between dusk and dawn

FIRE: current fire, or extinguished fire in an area on campus

FOOT PATROL: check of an area while on foot (around buildings, parking lots ...)

MOP 5 ADMINISTRATIVE

GAS LEAK: smell of natural gas and/or natural gas leak

GENERAL ASSISTANCE: assisting of a person(s) on campus

GREEN ESORT: transfer of funds from specific pick up and drop off points on campus

HARASSING/THREATENING BEHAVIOR: verbal harassment intending to cause harm

ILLEGAL ENTRY: entering an unauthorized area on campus

INDECENT EXPOSURE: flashing/exposing of private body parts in public

ISSUED IN ERROR: CAD call opened by mistake

LARCENY – BIKE: a bike is stolen from campus

LARCENY ALL OTHER: a theft of possessions that occurs on campus (use this if the crime does not fit into one of the larcenies specifically listed).

LARCENY BUILDING: a theft of property from a building in a common area that is open to the public (not a dorm room or private office)

LOST/FOUND: report of a lost item, or pick-up of lost/found items

MAINTENANCE REQUEST: work order entered including follow-up from contacting maintenance to check a current issue. This can include Carbon Monoxide and Hazmat calls unless it involves a medical.

MEDICAL: person(s) requires medical attention

MISSING PERSONS: person(s) is unable to be located

MOTOR VEHICLE THEFT: a motor vehicle is stolen from campus

MOTORIST ASSIST /LOCK OUT: a motor vehicle needs a jump start or air in the tires

PARKING ENFORCEMENT: officers are issuing a ticket, foot patrol for ticketing, or booting a vehicle

ROBBERY: a person(s) property is taken from them by force or threat of violence and/or putting the victim in fear.

SEXUAL ASSAULT: assault including rape, sexual harassment, forcible sodomy

SPECIAL EVENT: i.e. graduations, tournaments...

STALKING: repeated unwanted attention causing fear in the recipient

SUICIDE - ATTEMPT: suicidal ideation/attempt (non-completed) to end one's life

SUSPICIOUS PERSONS / SITUATION: person(s) acting suspiciously, or suspicious situation

TRAFFIC STOP: officer pulling over a vehicle for a traffic violation

TRESPASSING: unauthorized person(s) on campus in violation of trespass letter

TROUBLE WITH A PERSON: person(s) acting out, being disorderly or disrupting a group or event.

WELFARE CHECK: checking on a person(s) safety (safety phone call/hang-up, 911 alert with no answer, UTL a person, card watch)

MOP 5 ADMINISTRATIVE

MOP 5-8 VEHICLE REGISTRATION

STAFF/FACULTY VEHICLES - CALVIN UNIVERSITY AND SEMINARY

Parking permits for faculty/staff of both Calvin University and Seminary are four-digit numbers with a letter attached representing the year (i.e., 0001Y). Staff vehicle permit information can be looked up on the Access database on Computer 1, Monitor 2 called "Staff Permits." Double click to open the database, then click on the specific year to look up information. This log provides information on staff name, department, and permit number. No vehicle information is provided because the staff permits are transferable.

STUDENT VEHICLES - CALVIN UNIVERSITY AND SEMINARY

Beginning with academic year 2022-23, parking permits for Calvin University and Seminary Students can be looked up in iParq. See MOP 6-2 (page 32) for specific instructions. Permit registrations prior to 2022-23 are located in the file cabinet outside Officer 9903's office.

KEYSTONE (FACILITIES) EMPLOYEE VEHICLE PERMITS

Parking Permits for Keystone employees are in the same Access table as Staff Permits.

MOP 5-9 COMPUTER MONITORS

Computer 1 – Stand-Alone CPU

- Monitor 1
 - LENEL: Fire/Smoke and Trouble Alarm Monitoring
- Monitor 2
 - Weather Radar
 - University and Seminary Staff/Faculty Vehicle Permits
 - Temporary/Disabled Vehicles
 - Food Services Vehicle Permits
 - Bike Permits (Recent and Archived)
- Monitor 3
 - Avigilon Cameras

Computer 2

- Monitor 1
 - Dispatch E-mails
 - Calvin Website
 - People Search
 - Calendar
 - iParq
 - National Weather Service website
 - Facilities on-call staff schedule
 - EMS – Events Management System
- Monitor 2
 - Omnigo CAD
- Monitor 3
 - Avigilon Cameras

MOP 5 ADMINISTRATIVE

Computer 3

- Monitor 1
 - Radio
 - Man-Down Alarms

Computer 4

- Monitors 1 and 2
 - Lenel Alarms and Maps – Door, Card Watch, AED, and Panic Alarms

Computer 5 – Stand-Alone CPU

- App Armor

MOP 5-10 BINDERS, CHECKSHEETS, and MANUALS

MANUAL OF PROCEDURE (MOP) FOR DISPATCH

Read through this manual to familiarize yourself with general policies and procedures.

DISPATCH MEMO BINDER

The yellow memo binder is for temporary and/or new items affecting our dispatching operation. A new memo will be indicated by the date change on the whiteboard. **Read and initial** all new memos.

BLUE BINDER

This Blue Binder contains quick reference information for Dispatchers. You are required to be familiar with what is in the Blue Binder and use it as a reference.

Information provided (# = tab):

- 1-Logins and Passwords
- 1-Incident Call Types, Ten Codes, and Phonetic Alphabet
- 2-Emergency contact numbers (campus safety, local EMS/Police/Fire, Urgent Care)
- 2-Off- campus programs emergency contact information
- 2-Emergency Response Plan contact numbers (Confidential)
- 2-Campus Municipalities Boundaries Map
- 2-Panic Alarm Locations Map
- 3-Facilities Contact Information
- 4-Student Life; RD On-Call Phone#; RD Contact List
- 5-Power Outage Contacts
- 6-Department Contacts and Phone Numbers
- 7-Building codes and addresses
- 8-Building Policies and Hours
- 9-Medical Conditions – Confidential
- 10-App Armor
- Specific Calls Checklists (Tabs 11-15)
 - Suicide Calls
 - Medical Calls
 - Active Shooter
 - Bomb Threats
 - Suspicious Persons

MOP 5 ADMINISTRATIVE

START OF SHIFT CHECKLIST

The start of shift checklist needs to be completed at the beginning of your shift after receiving a pass-down from the off-going dispatcher.

GREEN ESCORT SCHEDULE CHECKLIST

The green escort schedule documents the pick-up and drop-off locations for the 1030 and 1430 green escorts. After the escort is completed and entered into CAD the green escort schedule needs to be initialed to indicate completion of the escort.

LOST ITEM FORM

The lost item form is used to record reports of lost items. Fill out the form and give to front desk so the item can be entered into the system.

SAFETY PHONE CHECKLIST

The safety phone checklist is used to record safety phone checks done on Sundays. If a discrepancy is found with the phone it should be noted in the comments section. Safety phone checklists are put in 9903's mailbox when finished.

DOOR CHANGES SHEET

The door changes sheet records the card reader information when changed to a locked or unlocked status outside of the scheduled times. This form is reviewed by 9902 to keep track of unscheduled changes. You are only authorized to unlock/lock a card reader door with the authorization from the CSS/CSO or appropriate authority.

MOP 5-11 CALVIN PHOTO ID CARDS

If someone needs a new ID, here are their options:

1. New employees – IDs issued at Campus Safety
2. New students – Student Life will automatically facilitate generating IDs
3. Employee Lost ID – \$10 for re-issue at Campus Safety
4. Student Lost ID – \$25 for re-issue at Student Life

MOP 5-12 EVENT MANAGEMENT SYSTEM (EMS)

To check to see if someone has a room scheduled:

1. Open the EMS software located on Computer 2 Monitor 1 (the backward "S")
2. User ID: dispatch; Password: "password"
3. Click on "Book" in the upper left-hand menu
4. Use the "building dropdown just under that to filter by building
5. View schedule
6. Hover the mouse over a scheduled time to get additional details.

MOP 5 ADMINISTRATIVE

MOP 5-13 CLERY CRIMES (Reportable Crimes, Property Definitions)

A. Clery Reportable Crimes

Per the Clery Act and in conjunction with the Violence against Women Act (VaWA) the following defined crimes have been designated as Clery reportable crimes:

1. **Murder and Non-Negligent Manslaughter**
2. **Manslaughter by Negligence**
3. **Sex Offense**
 - a. Rape
 - b. Fondling
 - c. Incest
 - d. Statutory Rape
4. **Robbery** – The taking or attempted taking of anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.
5. **Aggravated Assault** - unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury.
6. **Burglary** – The unlawful entry of a structure to commit a felony or theft
7. **Motor Vehicle Theft**
8. **Arson**
9. **Hate Crime**

B. Clery Property Definitions

There are four different types of property the Clery Act requires the University to provide crime statistics on. Those four property types are:

1. **On-Campus Property**
2. **On-Campus Student Housing**
3. **Non-Campus Property** – any building or property owned or controlled by the University that is used in direct support of, or in relation to the University's educational purposes, is frequently used by our students, and is not within the same reasonably contiguous geographic area of the University.
4. **Public property** – all public property, including thoroughfares, streets, sidewalks, and parking facilities that are within the campus, or immediately adjacent to the campus.

NOTE: The University only needs to count Clery reportable crimes that occur on public property that is adjacent to the main campus. This would not include incidents that happen on public property adjacent to any non-campus properties.

MOP 5 ADMINISTRATIVE

MOP 5-14 CAMPUS SAFETY AUTHORITY (CSA)

- A. **What is a CSA:** The United States Department of Education requires all people who are identified as Campus Security Authorities to report certain serious criminal incidents to the Campus Safety Department in order to comply with Clery Act reporting under federal law.
- B. **All Dispatchers are CSAs** – which means that Dispatchers are required to report all Clery defined incidents to the Campus Safety Department in a timely manner using the Clery Report Form.
- C. **Training** - Dispatches will receive information on CSA training annually in .

MOP 6 NON-EMERGENCY PROCEDURES

MOP 6-1 TEMPORARY/DISABLED VEHICLES LOG

Use the Temporary/Disabled Vehicle Log to take down information when students call saying they are bringing in a vehicle after hours or their vehicle is disabled and must remain on campus overnight. Inform students that they must park in legal student parking areas only (e.g., resident students may *not* park in the CFAC lot). Students/staff/faculty are NOT allowed to park in “No Overnight Parking” lots; exceptions are for only extenuating circumstances.

Remember the Temporary/Disabled Vehicle Log is for:

1. **New Unregistered Vehicles** – unregistered student vehicles brought in after hours and on weekends. They *must* be parked in a legal parking area, not in short term or non-overnight lots. The owner *must* come in the next business day and register the vehicle. They don't get an automatic three-day pass. If a vehicle arrives on Friday night and is going to be gone by Monday morning, the vehicle does not need to be placed on the temporary vehicle log. The owner must be informed that the vehicle needs to be parked in an overnight lot.
2. **Disabled Vehicles** - vehicles that cannot be moved for a *good* reason. Disabled vehicles can only be on the list for a maximum of three days. If there are extenuating circumstances and the vehicle cannot be moved, the owner must contact Campus Safety to make alternate arrangements.

The Temporary/Disabled Log needs to be fully completed with the caller's **name**, **license plate** number (and **state**), **permit** number if applicable, **Make/Model/Color** of the vehicle, **location** of the vehicle, and the **reason** for temporary or disabled permission (i.e. after hours for temporary permit, unable to jumpstart and getting towed tomorrow). Please use discretion from the criteria above to determine an **expiration date** (anywhere from 1-3 days), and **initial/time stamp** the record. It is especially important to fill in this information accurately in the event a parking violation was issued and there are discrepancies in the reported information.

MOP 6-2 PARKING

1. Parking Permits

- Faculty/Staff
 - Parking permits are automatically generated for faculty/staff and are transferrable from vehicle to vehicle. Lost permits: \$25 replacement.
- Faculty/Staff Spouse
 - Spouses need to come to Campus Safety and get a hang tag each year.
- Students
 - Students can register for a parking permit online and pick it up at Campus Safety
 - Cost is \$220 per semester or \$120 for second semester only
 - Lost permits: \$50 replacement.
 - If a student is graduating after the first semester, they still need to pay \$220, but they can pick up a request for a refund when they pick up their permit. They will receive a \$100 refund. Students traveling abroad or on an off-campus program are eligible for a refund. Refunds are not given for students transferring out of Calvin.
- Permits are not required for summer parking

MOP 6 NON-EMERGENCY PROCEDURES

2. **Commuter Students:** Commuter students can park in any lot around campus (unless reserved by specific signage). If a commuter student is going to be parked on campus past 2 am, they need to have their vehicle in an overnight lot (KE Lots, Prince/DeVos, Lot 8, Lot 13). They are allowed to be in these lots anytime (even during the day).
3. **Staff/Faculty** members that are leaving their vehicle overnight need to be in the Prince/DeVos Lots or Lot 8. If their staff permit is on their vehicle, they do not need to make additional arrangements with us.
4. **Visitors/Guests** that are staying overnight need to park their vehicles in an overnight lot (KE Lots, Prince/DeVos, Lot 8, Lot 13).
 - Permits are not needed for guests/visitors that are arriving on weekdays after 4 pm and leaving that same evening. No permit is needed if someone is arriving after 4 pm on Friday and leaving before 9 am on Monday. However, the vehicle must be parked in a lot that allows for overnight parking.
5. **Visitor Parking passes** for non-students can be printed and paid for (\$2.50/day) by using the link found on the Calvin Campus Safety Website homepage. Please note that visitor passes are for guests only. Overnight guests in the residence halls must park in the same overnight lots that resident students utilize. These lots include Lots 8, 13, 14, 15, 16, 17, 18, 19 and 20. Visitor passes are limited to 5 passes in a year's time for each license plate. If the individual will be visiting Calvin frequently, please have them contact the Campus Safety Office to acquire a long-term visitor parking permit.
6. **Athletes Parking:** A lot will be periodically designated for overnight parking for athletes traveling overnight for an athletic event. Dispatch and officers are supposed to receive a list from the coaches of vehicles that will be parked overnight while the team is traveling.
7. **Overflow parking** for both Lot 13 and Lot 8 is designated as the lots by DeVos and Prince Conference Center. Anyone calling and saying there is no parking available in either of these lots should be directed to Lots 14-16).
8. **Temporary Permits**
Temporary Permits can fall under two categories:
 - If a student **does not have a vehicle** registered but has been given a vehicle to use for a few days/weeks (eg: a student is only planning on driving to campus a couple times a semester), the student should purchase a pass online for the specific dates at <https://calvin.thepermitstore.com> for \$2.50/day or \$17.50/week. They should log in under their Calvin student account. Similar to a visitors' pass, the student will be able to print the temporary permit off from the website and display it on their dash.
 - If a student **has a vehicle** registered but they are using a different vehicle temporarily (ie: their car is in the shop), the student will need to come to the Campus Safety Department in person to pick up a temporary hang tag. There is no charge for this permit since they have already registered the vehicle they usually take to campus.

NOTE: If a student is bringing a vehicle to campus for long term use and wants to register it, they can register online at any time, day or night. If it is over the weekend, they should go ahead and register online so we have record that the vehicle has been registered. Once registered, permits need to be picked up at Campus Safety. Also, if a student doesn't have permanent plates, they can still register their vehicle with their temporary plates and email us with their permanent plate number when they receive it.

MOP 6 NON-EMERGENCY PROCEDURES

- Frequent visitors, overnight guests, and students who do not have a vehicle registered on campus should be directed to Calvin's Campus Safety website to pay for a permit. Permits can be picked up in the Campus Safety office. Overnight guests in the residence halls must park in the same overnight lots that resident students utilize.
- Persons who knowingly acquire, use, or display a parking permit not consistent with their status will be considered to be engaged in fraudulent behavior and will be referred to the campus discipline process.

9. Summer Parking

- Students that need to leave their vehicle on campus for over 30 days (**unattended**), must contact Campus Safety to register their vehicle and make parking arrangements. A \$25 charge will apply for the summer registration. If a vehicle is left for more than 30 days without informing Campus Safety, a \$50 ticket fine will be issued.
- If students are heading home for the summer and want to leave their car on campus, they can do so with the following stipulations:
 - They must park their car in Lot 13.
 - They must sign a waiver indicating that Campus Safety is not responsible for their vehicle should something happen to it over the summer.
 - There is a \$100 parking permit fee.
- Students taking summer classes or residing and/or working on campus during the summer are not required to have a parking permit displayed on their vehicle.

10. Permit Numbering and Color-Coding System

- | | | |
|---------|--------|-----------|
| • 10000 | Green | Commuters |
| • 11000 | Green | Commuters |
| • 12000 | Green | Seminary |
| • 13000 | Red | KE |
| • 14000 | Purple | Lot 8 |
| • 15000 | Yellow | Lot 13 |

11. Parking Permits and License Plate Lookup – Students (beginning 2022-23 school year)

1. DIRECTIONS TO ACCESS IPARQ SYSTEM

- Login at <https://admin.thepermitstore.com>
- LOGIN: dispatch@calvin.edu
- PASSWORD: **bath party beans** (with spaces)
- **TO RUN A PERMIT**

In search tab on far left, you can search for the permit by:

 - Enter permit number (ie: RKH22D14404). This will only be for iParq permits with barcodes and not previous year permits or staff/faculty permits.
 - Click the small magnifying glass next to the search to retrieve the information.
 - A name should appear. If you need a phone number, double click on the person's name and an overview screen should appear with their specific information.
- **TO RUN A LICENSE PLATE**
 - License plate can be run by typing the license plate in the search bar (and then click magnifying glass) or by going under Customer- Find Customer tab and type the license plate in the white box below license plate. Hit search tab on far right.

MOP 6 NON-EMERGENCY PROCEDURES

- **TO FIND A PHONE NUMBER OR SPECIFIC VEHICLE INFORMATION**
 - Go to Customer-Find Customer tab on far left and type in partial first name and partial last name in appropriate columns. Click “search” on the far right. You should see name and phone number appear below on the overview tab.
 - To find specific vehicle information, click “vehicles” tab found in the white boxes under the yellow highlighted area.

MOP 6-3 BUILDING ACCESS POLICY AND AFTER HOUR BUILDING USAGE

Students are permitted to be in academic buildings (non-resident halls) during normal operating hours. Unless noted during breaks and other circumstances, students are also permitted into buildings into which they have card access according to the hours posted at Dispatch. Card access is also available at DeVos Communications, BU, Commons Union, SFC, and Johnny’s for limited hours on Sundays. Students are not allowed to remain in buildings after card access hours have ended. **For the most up-to-date and specific building hours, refer to the schedule on the desk at Dispatch.**

Vetting students requesting access to a building:

1. If a student typically does not have access to a building, inform them that you “do not have the authority to give them access,” and that they will need to contact their supervisor, who will need to contact Campus Safety to give them access. If access is needed for an extended period, their supervisor can contact 9902 for card access update.
2. If the student typically has access, but their card is not working:
 - They may be trying to get into a building after their approved hours or into a building that they are not approved for. You do not have the authority to let them in.
3. If it sounds like just a card issue, vet them by looking up their access status in Cardholder Search on Computer 4, Monitor 3
 - Click on the “silhouette” in the menu bar, then “Search.” Enter name or ID, then “OK”
 - Make sure that they are “Active.”
 - Click on the “Access levels” tab to check their programmed access, and/or...
4. If you want to find card access history by running an historical report, do not use “Search” in #3 above. Instead, on the main Lenel menu from Computer 4, Monitor 3:
 - a. Click on the “View” tab and choose “Reports...,” then “Reader Reports” tab
 - b. Chose “All Events Over Time”
 - c. Filter by First and Last Name (or the beginning of a name if spelling is unclear).
 - d. Click <Preview>
 - e. NOTE: If you do not want to wait for a lengthy report, it is best to filter by date.

MOP 6 NON-EMERGENCY PROCEDURES

MOP 6-4 BUILDING AND DOOR ACCESS

Campus Safety Upper Stair Office Door Procedures: The upper stair office door is to remain locked after normal business hours. All Campus Safety employees have card access, so they can get in. An outside call box is available at our lower entrance for any after-hours requests.

Do not let access into the building after hours to pay tickets or receive permits. Access is allowed to return keys, or pick up a cell phone, ID card, or some other important lost item.

Campus Safety Door Access Buttons: It is not recommended that you allow persons into the building unless they are picking up or dropping off mail, or you personally know them. Use the camera for the lower door to check. Call an officer if someone needs to enter our office and you are here alone. Use the buttons, located under the shelf by the video monitors to allow entry of **AUTHORIZED PERSONS** into the building and warehouse.

Mail and Print Services Building Access: On a regular basis, M-F, the **United States Post Office, UPS, DHL** and **FedEx** deliver and pick up after 5:00pm. The carrier will call on the outside call box. You can let them in with the pushbutton to the outer door to do their pickup or delivery. Keep a watch on the cameras for any unusual activity. They may at times open the overhead door. Just be sure they close it. Call in a CSO to close open overhead doors.

On weekends, you can accept drop-offs from the same carriers and if necessarily have a CSO or Supervisor sign for any Saturday shipments and have them leave it in the warehouse or just hold them in Campus Safety until Monday. We do not allow persons to pick up printing services jobs after business hours unless this has been arranged ahead of time.

General Let-in Policy:

1. **FACULTY AND STAFF:** After properly vetting faculty and staff, card reader doors may be opened remotely from Dispatch.
2. **STUDENTS:** After properly vetting the student, an officer needs to be dispatched for student let-ins:
 - a. Let the student know that our officers may not be able to respond immediately because of other responsibilities.
 - b. Ask them if there is anyone else that can let them in.
 - c. Dispatch a student officer first (if available), then an Officer.
 - d. If an officer makes an exception for a Card-Reader Let-in because of extenuating circumstances and requests that Dispatch do an electronic let-in, be sure that the student knows that this is an exception, and document it in CAD:
 - Create a New Call in CAD
 - Assign yourself as the officer
 - In the notes, write 'Electronic let-in per Officer 99XX'
 - Make sure that you document the person's name and phone number in the 'Reporting Person' area.

Early Entrance into Dorms and Apartments. After breaks and holidays, we get requests from students to be let into dorms and apartments early. From the Dean's Office: **DO NOT GRANT REQUESTS TO BE LET INTO THE DORMS OR APARTMENTS EARLY.** Any requests for

MOP 6 NON-EMERGENCY PROCEDURES

early entrance must be made through the Housing Office or through the Resident Directors. If we are requested to open a building to let a person in early, tell them we cannot do so without permission of the Housing Office or Resident Director. Officers do not have the authority to open dorm trunk rooms. This must be done by an RA or RD. For housing problems that cannot be resolved, contact with Jay Wise (Dir. of Housing) or Becki Simpson (Dir. of Resident Life).

Access to rooms during breaks: Although letting people into dorm rooms or apartments during breaks is not encouraged, if you must let someone in, please follow protocol:

1. The person must have their own room key. We do not unlock individual rooms.
2. Vet them through the cardholder database and/or get verification from Housing.
3. If the person is off-campus, have them call dispatch once they are on site.
4. Dispatch an officer to meet them to be let in and accompany them until they leave.
5. If frequency of break let-ins increase, contact Resident Life to arrange for let-ins.

OPENING ROOMS OR BUILDINGS

All student let-in requests must be vetted through the Lenel card reader system. Students must have **written permissions** to get into locked offices or alarm-secured areas they are not assigned to in Lenel. Examples of Authorized persons they must get permission from:

1. Student Offices – JB Britton
2. Professor's (personal) Offices – the specific Professor must contact us
3. Departmental Office - Head of the Department

For students requesting access to buildings or rooms after hours, see the 'Building Access Policy' MOP 6-3. There may be situations where a person needs to pick up or drop off something and can be escorted in and out by Campus Safety personnel.

Trunk Room Requests: All Requests from students wanting to get into trunk rooms must go through the Housing Office/Residence Life or the Resident Director. Officers do not have the authority to let students into the dorm Trunk Rooms.

Pool Requests: If possible, all student requests to be let into the pool (eg: lifeguards) should be referred to the Kinesiology department. This include lifeguards.

MOP 6-5 ESCORTS

There are three types of escorts; to avoid confusion, keep sensitive information from being broadcast, and better inform the person doing the escort on the nature of the task, we use the following messages to indicate the nature of the escort:

1. **Blue Escort:** indicates a request for a medical reason or from a disabled person requesting an escort. Most of these escorts occur during the daylight hours and are the result of the person's inability to get to class due to a permanent or temporary disability.
2. **Green Escort:** indicates that the reason for the escort is to transfer money or confidential material from one location to another. Offices call to tell us which department they want the escort picked up from and dropped off to. All green escorts should be recorded on the green clipboard. Green escorts are conducted at 1030 daily and 1430 if requested, M-F. At those

MOP 6 NON-EMERGENCY PROCEDURES

times, dispatch an officer for a *green escort*. **Each green escort location/department is entered into CAD separately.** Green escorts not initialed on the green clipboard indicates that it needs to be scheduled for pick-up later, or the next day at 1030.

- **Note:** No matter what the person from Financial Services says or asks *do not* use words on the radio like “*money*”, “*go to the bank*”, or anything that indicates that they are involved in transporting money. Simply dispatch an officer with “We have a Green Escort from ‘X location’ to ‘Y location’.”

3. **Safety Escort:**

Safety Escorts refer to the normal escorting of persons requesting an escort from one place to another during hours of darkness. We do *not* give safety escorts during the day (even if it is raining/snowing) or to groups of 3 or more students at any time. Remember the vehicles have limited space and are not taxi services.

- Safety escorts begin at *dark*, and are *not* a delivery service to carry packages, move furniture, etc. Introduce Safety Escorts as walking escorts. Officers have the discretion to use their vehicle. SSOs assist with escorts. A good response to a call requesting a safety escort would be, “*Yes, we can provide a safety escort. Presently our protocol is to conduct these as walking escorts. Please confirm that you would like a walking safety escort.*”
- On arrival, if no one is around, officers may contact Dispatch to attempt to call the original caller back to confirm their location.

4. **Virtual Safety Escorts:** Please refer to protocol on Page 79.

MOP 6-6 ALARMS – GENERAL NON-EMERGENCY

Computer 4 monitors card reader alarms in all buildings.

WHEN YOU RECEIVE AN ALARM:

- 1) Double click the alarm to open the Alarm Acknowledgement window.
- 2) Mark the alarm as “In Progress”
- 3) Read and follow the protocol under ‘Instructions’, dispatch officers as needed.
- 4) Once investigated, the alarm can either:
 - Have additional notes added to indicate the status
 - Select the “update” button to add the text to the log
 - OR – Mark the alarm as “Acknowledged”
 - Double click on the alarm to open the ‘Alarm Acknowledgement window’, add responding notes in the ‘Notes’ box and click ‘Acknowledge’
- 5) Multiple alarms can be cleared at once by pressing ctrl + F11 + F12 and hitting <Enter> (helpful for large groups of non-significant alarms on right side of Lenel)
- 6) Clear out alarms that can be Acknowledged. Do not let the alarms build up
 - Add notes to alarms and click ‘update’ for pending alarms that an officer was notified about. Any alarm pending and not acknowledged is your responsibility, notes can verify that you responded to the alarm.

Side and Rear Door alarms at the Residence Halls

MOP 6 NON-EMERGENCY PROCEDURES

The side and rear doors of the residence halls have exit alarms that are armed from Midnight to 7AM. If a student uses these doors, the local alarm will be triggered in Alarm Monitoring, and the corresponding icon on the map will show that the alarm is active and “audio.” These alarms can be reset on the map of the dorm by right-clicking the RESET button and selecting “Execute”. If any of these alarms are received between midnight and 7AM, check cameras to see if a CSO should be dispatched to investigate the cause of the alarm, especially if the door is held open or if there is suspicious activity.

DO NOT AT ANYTIME TURN DOWN OR TURN OFF THE VOLUME ON ALARM WORKSTATION PCs.

FAILURE TO RESPOND IMMEDIATELY AND PROPERLY TO AN ALARM COULD RESULT IN A DANGEROUS SITUATION.

Non-Emergency Lenel Alarms:

1. Periodic System Test/System Trouble – (yellow) a previous trouble alarm has not been resolved & was identified during system test. Follow instructions; Acknowledge alarm.
2. Periodic Test Report – (green) system self-test, just acknowledge the alarm.
3. Sensor Trouble/Trouble Bell – (yellow) the listed device or building panel has an issue with the fire sensor/bell/panel. Read instructions. Just Acknowledge and notify officer to check and silence the fire alarm panel that may be beeping, the trouble may restore within 30 minutes. If a restoral is not received, submit a work order.
4. Receiver Comm Lost – (yellow) communication between the alarm system and server was lost for a moment, just information, Acknowledge the alarm.
5. Telco Line 2 Fault – (yellow) connection between the phone line and alarm system is lost for the listed location, Acknowledge the alarm. If no restoral is received or if this continues to fault, then submit a work order to CIT.
6. Scheduler Action Executed – (yellow) notification of scheduled command being sent to the location i.e. doors changing to card and pin, Acknowledge the alarm.
7. Reader Mode – (blue)) notification of scheduled command being sent to the location i.e. doors changing to card and pin, Acknowledge the alarm.
8. Global Linkage Action/Alarm Monitoring Action Group Executed – (yellow) notification of scheduled command being sent to the location (i.e. ADA button is pressed or Alarm reset). Just Acknowledge the alarm.
9. Untyped Zone Restore – (green) system restoral. Dewit Manor gives an audible alarm for this, it is NOT an emergency. Just Acknowledge the alarm. If Dewit Manor shows a listed Zone # in the (device) section, send the Officer to check the area.
10. Open/Close – (green) authorized user opened or secured the area, Acknowledge alarm.

MOP 6 NON-EMERGENCY PROCEDURES

Map Icon Legend

	AED Indicator	Indicates placement and status of AED devices	If alarm is active, dispatch a CSO immediately to the location.
	PANIC Indicator	Indicates placement and status of PANIC buttons	If alarm is active, dispatch a CSO immediately to the location.
LOCKDOWN 	Floor/Building Lockdown Trigger	Activates specific building lockdown Icon is RED during lockdown	Each map contains the corresponding building lockdown procedure
GLOBAL LOCKDOWN 	Global Lockdown RESET	Used to reset all readers following a Global Lockdown scenario Icon is RED during lockdown	Located on the MP Level 2 map Right click>Deactivate>Reader Auxiliary Output
	Reader Door – SECURE	Door is in Locked, Card Only or Card + PIN mode	Door not accessible to public, but accessible to valid cardholders with access.
	Reader Door – NOT SECURE	Door is in Unlocked mode	Door is accessible to anyone who pulls the handle
	Reader Door - MASKED	Door status not relevant, no alarms	While masked, no alarms will be received in Alarm Monitoring, and the status is not known
	Exit Alarm Indicator	Shows placement and status of audible door alarms in Dorms	Alarms sound when a door is exited between midnight and 7AM, or if a door is held open for longer than 5 minutes
	Exit Alarm RESET Trigger	Allows reset of audible Dorm exit alarms	To reset any audible door alarms, on the map corresponding to the alarm's location, right click the RESET button and select "Execute"
	Door Held Indicator	Shows a "door held open" status on any reader door	If a door is held open, please dispatch an available CSO to secure the door
ALARM	ALARM Text Indicator	Indicates that there is an alarm that has not yet been acknowledged in the Alarm Monitoring window	This does not mean the door is in an alarming state, just that the alarm hasn't been cleared
	Monitored Door – SECURE	Non-reader door is SECURE	Door is closed and secured properly
	Monitored Door – NOT SECURE	Non-reader door is NOT SECURE	Could be a "door held open" or otherwise not secure. Please dispatch an available CSO to secure the door
	Monitored Door - MASKED	Non-reader door indicates location	While masked, no alarms will be received in Alarm Monitoring, and the status is not known

MOP 6 NON-EMERGENCY PROCEDURES

Meeter Center Rare Books Room Intrusion Alarm (This alarm is outdated and does not function properly. If/when fixed, this is the protocol):

The Meeter Center Rare Book room is located inside the Meeter Center on the fourth floor of the Hekman Library in the southeast corner of the building. This alarm monitors intrusion into the Rare Book Room, Smoke/Fire inside the Rare Book Room, and high or low humidity in the Rare Book Room. When an alarm is received at Dispatch, the dispatcher shall notify Campus Safety personnel of the zone(s) that have alarmed.

Searching an Individuals Door Access History

Searching door access history can be done through Lenel by reviewing a card access report. This report will show the date/time, event, details (card owner information), and device (location).

To search door access:

- 1) On the Alarm Monitoring screen, click 'view', then 'reports'
- 2) On the reports screen select the 'Reader Reports' tab
- 3) Click 'All Events Over Time' (This will show all the alarm types that occurred during the specified time frame)
- 4) Edit the Date/Time filter
- 5) Edit the Cardholder Filter (Last and First name)
 - Do not enter anything in "Badge ID." This is NOT their Calvin ID#.
 - Click "Preview"

MOP 6-7 AVIGILON CAMERAS

Open Avigilon Cameras:

Computer 1 Monitor 3:

- Click on the Avigilon Camera icon on Computer 1 Monitor 3 (the blue square with the eye in the middle)
- Drag camera screen from Monitor 2 to Monitor 3 and maximize, if necessary.
- Under "Dispatch Views" on the left, double click on each "LEFT View" and wait a couple of seconds for each to open.
- Click on the "Cycle Views" icon.

Computer 2 Monitor 3:

- Repeat steps above for Computer 2, using "RIGHT View" cameras.

Avigilon Camera Functions:

Maximize Individual Camera to Full Screen View

- Click on the "Maximize" icon on individual camera view.

View Camera Not on Dispatch Standard Views

- Take Cameras off "Cycle Views"
- Expand menu on left to search for the camera desired. You can hover the mouse over a specific map to check the view.

MOP 6 NON-EMERGENCY PROCEDURES

- Double click on map to add to a new view.

Review Recorded Camera Footage:

- Take Cameras of "Cycle Views"
- Click on the "Maximize" icon on an individual camera to be viewed.
 - It is best to open a new view and maximize if searching for a specific issue.
 - Once open, click on "Recorded."
 - Click on date/time box in lower left to open calendar; choose date.
 - Use slide bar under time box to expand hours for chosen date.
 - Move white vertical bar on timeline to approximate time for footage to be viewed.
 - Click the Play button. Use forward and reverse play or speed/slow play.
 - Demonstrate Zoom in/out and Pan tool.

Capture and Save a Camera Image.

- When reviewing recorded camera footage, press 'II' pause and click the camera icon in upper right ("Save snapshot"). A pop-up will briefly display "Clip Successfully Added."
- To export to a file, click on the "hamburger" (three vertical bars) in the upper left corner; click "Export"; click the check box next to the photo(s) to be exported, then "Export." The Dispatch folders will pop up. Save photos in (\\hartwick) (R:) > Campus Safety > Student > Dispatch > Photos and Recordings

Capture and Save Video

- When reviewing recorded camera footage, right click on the time stamp bar and choose "Add bookmark." Slide the bookmark guides to the section you want to bookmark. Click on bookmark, then "Export."
- To export to a file, use the same protocol as saving an image.

MOP 6-8 KEY CHECK OUT/CONTRACTOR INFORMATION

Authorized contractors needing access to work on Calvin owned property may check out keys and key cards from dispatch. There are master key sets located in the Trakka box in the CS stairwell. Back-up key sets are in the key box in the cupboard near the printer in Dispatch. These keys should not be given out to contractors unless it is a specific key not on the key ring in the Trakka box, or if the other keys in the Trakka box are already checked out. The key cards for **Academic** buildings and **Residence** halls are in the cupboard near the printer. All keys and key cards need to be recorded on the key check-out clipboard by the printer.

MOP 6-9 MALICIOUS CALL HANDLING

When someone calls to report any type of obscene, harassing, or threatening phone call, follow our normal incident handling procedure and dispatch a Campus Safety Officer to take a report.

MOP 6 NON-EMERGENCY PROCEDURES

MOP 6-10 RD ON CALL

The on-call Resident Director number is **616-540-8732**.

During a medical or psychiatric emergency involving a student that is transported to a hospital, the RD on-call needs to be notified via the on-call cell phone. If the on-call RD does not answer, leave a detailed message and record on the CAD. Call the specific dorm RD and advise them that the on-call RD did not answer and give them the situation information and where the student is being transported to. **If you are unable to reach an RD or RA in an emergency, contact one of the Deans (Jay Wise, Becki Simpson, John Witte). All numbers are in the Blue Binder.**

MOP 6-11 THEFT, ACCIDENT, VANDALISM REPORTS

Dispatch a Campus Safety Supervisor or Officer to all requests that involve taking a report – vehicle accidents, incidents, larcenies, or other similar situations. Be sure to enter all information into CAD including **dispatch time, arrival time, and completion time.**

THEFT (LARCENY FROM A VEHICLE/BUILDING)

1. Gather caller's/owner's name, location, call-back number.
2. Gather situational information
 - What is missing, Where did it occur, When did it occur
3. Ask if they witnessed who took the items, if so, gather a description of the suspect
 - Physical description head to toe, time they saw them, direction and route of suspect
4. Notify units of a theft report that occurred at a prior date/time, or **dispatch all units immediately** to a theft in progress of situation/location/specific location
5. Pull up cameras in the area, update officers.
6. Record all information in CAD (Larceny – Bike, Larceny – Building, Larceny)

VANDALISM (DAMAGE TO PROPERTY)

1. Gather caller's/owner's name, location, call-back number.
2. Gather situational information
 - What is damaged/vandalized, Where is the specific location, When did it occur
3. Ask if they witnessed who took did the property damage, if so, gather suspect description
 - Physical description head – toe, time they saw them, direction and route of suspect
4. Notify units of damage to property report that occurred at a prior date/time, or **dispatch all units immediately** to a vandalism in progress of situation/location/specific location
5. Pull up cameras in the area, update officers.
6. Record all information in CAD (Damage To Property)

ACCIDENT (MOTOR VEHICLE -NO INJURIES)

1. Gather caller's/owner's name, location, call-back number.
2. Gather situational information
 - Where did it occur, When did it occur, Is anyone injured, description of vehicles?
3. Notify units of a motor vehicle accident report that occurred at a prior date/time or

MOP 6 NON-EMERGENCY PROCEDURES

dispatch all units to a motor vehicle accident in progress location/specific location/vehicle descriptions ** If injuries are involved gather medical information, be ready to call EMS and GRPD to take an accident report.

4. Pull up cameras in the area, update officers.
5. Record all information in CAD (Accident – Motor Vehicle)

If Campus Safety Officers observe vandalism or a suspected theft to student or staff's property, they may ask the dispatcher to contact the owner and have them come to the scene.

Dispatch a Campus Safety Supervisor/Officer to any reports of traffic accidents. Automobile accidents on campus require that drivers exchange information. Local authorities do not take accident reports on private property unless there was personal injury involved or drivers insist. If there was a personal injury, follow emergency procedures described and call G.R. Police Department to take an accident report **OR** if there is a serious injury call 911.

MOP 6-12 MOTORIST ASSISTS

JUMPSTARTS/LOCK-OUTS/AIR IN TIRES – On Campus Requests Only (We do not assist off Calvin property)

The Campus Safety Officers conduct jumpstarts, assist with lockouts, and/or provide air for tires as time and other duties permit. Dispatch a Campus Safety Officer to the location indicated by the person requesting this service. For jumpstarts it is suggested that the person raise the hood of their vehicle to help the CSO locate the vehicle in the lot.

MOTORIST ASSISTS (JUMPSTARTS/LOCKOUTS)

1. Gather caller's/owner's name, location, call-back number.
2. Gather situational information
 - Is it a lockout, jumpstart, or air in tires? Where is the specific location? Are they by vehicle?
3. Gather vehicle information (make, model, color)
 - Lockout or air in tire: have them stand by their vehicle
 - Jumpstart: have them raise the hood and stand by their vehicle
4. Notify officer of situation/specific location/vehicle description
5. Record all information in CAD (Motorist Assist). Specify type of assistance needed
6. If the vehicle cannot be jumpstarted, then add it to the disabled list Access log.

NOTE: Officers do not change flat tires. We can only offer to provide air for them to get to their destination. The Facilities building has 24-hour red air hoses to fill up low tires located on the east and west sides of the building.

VEHICLE LOCKOUTS – On Campus Requests Only

Campus Safety attempts lockouts (opening cars with keys locked inside) at all hours.

FUEL REQUESTS - We are unable to transport any gasoline to a vehicle that is low on gas or runs out of gas.

MOP 6 NON-EMERGENCY PROCEDURES

MOP 6-13 LOST AND FOUND

In accordance with state law, lost and found items turned into Campus Safety will be kept in the office for a minimum of 3 months.

After hours, if a call is received looking for lost items the dispatcher should get an item description and check the front desk for items recently lost. If the item is not on the front desk, notify the caller that a Lost Item form can be filled out and that they will be contacted if the item is turned into Campus Safety. Fill out a "Lost Item" form with the owner's name, date, item description, last seen location, phone number, and email address. Put the Lost Item form on the Office Manager's desk so that it can be entered into the system.

MOP 6-14 MEDIA QUESTIONS

Only authorized persons of Calvin University will be allowed to talk with the media. All university personnel are required to refer all questions from the media to the Marketing and Communications (MARCOM) office. All personnel are reminded not to speak to the media on behalf of the university, unless authorized. All calls from the media are to be referred directly to Marketing and Communications (MARCOM) at 526-8500.

Employees shall treat the official business of the university as confidential and shall not disseminate information regarding university business or operations. Employees shall not disseminate or release any student records or information in accordance with Federal Educational Records Protection Act (FERPA).

MOP 6-15 DOOR LOCK PROBLEMS

If an interior or exterior door of a residential building (Residence Halls and Apartments) does not lock properly and would compromise the security of the residents, the situation must be addressed immediately. A Campus Safety supervisor should always check the door for a possible remedy to the situation such as the removal of debris in the door track.

If the situation cannot be remedied, the problem shall be immediately reported to the appropriate Facilities emergency contact in the Dispatch Blue Binder.

If an interior or exterior door of an academic building does not secure properly, a Campus Safety supervisor should respond and check the door for a possible remedy to the situation. If unable to remedy the situation, and...

- It is a critical security issue: report the problem immediately to the appropriate Facilities emergency contact in the Dispatch Blue Binder.
- The remedy can wait: Put in a work order request at facilityrequest@calvin.edu.

MOP 6 NON-EMERGENCY PROCEDURES

MOP 6-16 BAT AND OTHER CRITTER REMOVAL

When dispatch receives a call for an animal in a building (bat, bird, snake, etc.), Emily Taylor from Facilities should be notified during regular business hours. After hours, dispatch an officer.

In rare instances, dispatch may be asked to contact a professional contractor. These numbers are listed in the Emergency tab of the Blue Binder.

Animal Control	616-632-7300
Critter Control	616-433-1519

MOP 6-17 HEAVY RAIN

During heavy rain Campus Safety personnel need to be alert to any flooding or leakage problems. Loading docks and other low-lying areas are very susceptible to flooding. Any problems with flooding or water leakage should be reported to Facilities.

MOP 6-18 WELFARE CHECK – General

Welfare Checks are used when a caller believes that there is a good [non-suicidal] reason for a student to be checked in on. Examples include students:

- Who are homesick, depressed, or dealing with significant life issues
- Who have been suddenly missing class frequently
- Who are known to be ill and is not responding to attempted contact
- Who have stopped being engaged in their normal activity

Protocol:

1. Gather information from caller
 - Name and phone number **of caller**
 - Name and location (if known) **of student of concern**
 - Description of concern
2. Dispatch an officer
 - “Dispatch to 99xx.” [wait for response] “We have a welfare check in Bennink 222. Parent is concerned that their student is depressed/not responding to attempted contact.”
3. Wait for directions from an officer regarding contacting the RD/Area Coordinator or Residence Life On-Call number for follow-up.

Note: If the welfare check is an emergency or there is a serious threat to a student, such as a possible or actual suicide attempt, refer to MOP 7-8.

MOP 6 NON-EMERGENCY PROCEDURES

MOP 6-19 MEDICAL - NON-EMERGENCY

Calvin Health Services does not take walk-ins. When a student calls regarding a non-emergency health issue (bad cough, low-grade fever, flu-like symptoms, etc.), dispatch can:

1. Encourage them to make an appointment with Health Services online or leave a message at 616-526-6187.
2. During regular business hours: Give the triage nurse a call at 616-526-6187, option 2. She will ask some questions over the phone and give guidance on what to do next.
3. After hours: Encourage them to go to one of the nearby Urgent Care facilities (see below). If they do not have transportation, ask them to reach out to a friend or their RA. If they have already attempted to reach out to their RA with no response, call the RA on-call number yourself (do not give them the on-call number!), and communicate the situation to the on-call RA.
4. Nearby Urgent Care Facilities include:
 1. Metro Urgent Care, 4055 Cascade Rd SE (616-252-4100)
 2. Corewell (Spectrum Health) Urgent Care, 2750 East Beltline NE (616-391-6230)

MOP 6-20 CADAVER LAB

Cadaver Lab Let-in Protocol

1. The Cadaver Lab is a **restricted room**. However, since cadavers may be in transport within the entire lower floor of DH from time to time, access to the entire area is also restricted.
2. Several of the Nursing and Biology Department faculty have access to the general lower level, but **only a few individuals have access to the Cadaver Lab**. These include:
 - ✓ Campus Safety Officers
 - ✓ Adejoke Ayoola, Dean
 - ✓ Ryan Bebej, Biology Professor
 - ✓ Kevin Kane, Adjunct Biology Professor
 - ✓ Lori Keen, Lab Services Manager
 - ✓ Brett Hoogewind, Keystone/Facilities
3. Do not grant access to this area to anyone who does not have approved access for any reason without one of the individuals above being present. For example, if Facilities needs to be let in for a Facilities Emergency (HVAC issue, flooding, etc.), Brett Hoogewind needs to be called and an officer or Brett need to be present for the let-in.

MOP 6 NON-EMERGENCY PROCEDURES

MOP 7 EMERGENCY PROCEDURES

MOP 7-1 911 PHONE CALLS

Emergency phone calls will come to Dispatch on either our 63333 extension or the 911 line.

When someone dials 911 or 63333, 911 operators are not contacted. Dispatch will need to vet the call and call 911 if necessary or if directed by an officer.

NOTE: All 911 calls made from a campus phone will go to Dispatch. There is the possibility that an individual would call 911 directly from their cell phone (bypassing Campus Safety). If this happens, you may receive a call from the Grand Rapids 911 dispatch stating that they received a 911 call from someone at Calvin. Please get as much information from the 911 dispatcher, including whether EMS has been dispatched and dispatch officers accordingly.

Emergency Phone Call Protocol

- Follow protocol specific to each emergency per MOP 7 protocols below.

MOP 7-2 POWER OUTAGE

During a power outage all air conditioners, pumps, most lighting, and most telephones do not function. Emergency lighting is provided in key areas. Several areas have backup generators. If special events are taking place, it is advisable to send Campus Safety Officers to those areas, such as the CFAC Auditorium, Gezon Auditorium, Spoelhof Fieldhouse Complex, etc. to help people exit safely. Radio communications are maintained by battery backup, but most phones are inoperative during power outages. Our dispatch cell phone can be used. Campus Safety and those who carry cell phones will be the only ones with good communication during power outages.

Whenever the campus loses power outside of normal business hours (Monday – Friday, 8:00 a.m. to 5:00 p.m.) including weekends and holidays, there are specific people in the Biology and Chemistry Departments along with Health Services, and Facilities who need to receive notification of the outage. The reason for these notifications is because each of these departments has freezers that store extremely fragile research samples, or in the case of Health Services, medicine. Several of these items are worth tens of thousands of dollars and in some instances are the result of years of research work, thus making them irreplaceable.

The freezers in question currently are not on a sufficient generator back up system, making it essential that employees are notified so they can respond and take measures to preserve each freezer's contents. Below are the names and contact phone numbers for the individuals who should be notified of a power outage.

MOP 7 EMERGENCY PROCEDURES

Biology Department

Lori Keen – 616-401-4921

Dave Koetje - 616-290-2575

Amy Wilstermann – 616-334-7268

Dining Services

Luis Aljona – 630-518-8215

Todd Kurtz – 269-929-4267

Health Services

Barb Mustert – 616-485-7003

Laura Champion – 616-617-4414

Joe Russell – 616-516-1645

Brett Hoogewind – 616-201-6793

Power Outage Protocol:

1. *Contact all Units.* Have officers check each building to verify which has lost power. If the power stays off for more than 5 minutes in our building, contact 9902 (Simon Bennett).
2. *Call Facilities.* See above.
3. *Call Power Outage contacts:* Call the list of contacts in the emergency binder (same as above) for each building/department that has lost power:
 - a. Call the first name on the list of each department affected, leave them a detailed message of the time and situation. Continue attempting to connect with the other departments.
 - If no call-back is received after 10 minutes from the first person contacted, then go back and call the second contact person on the list. Document all attempts, and contacts made.
4. *Alarm Monitoring Program:* In the event of a power failure, the alarm monitoring program will receive numerous alarms. Do not panic! After the power is restored, check each alarm, and make sure it gets reset by either Campus Safety or other authorized personnel.
 - Reviewing alarm history on Lenel: click 'Trace', select 'Monitor Zone', check the box for 'Perform Historical Trace' and enter in the time frame for the duration from the start of the power outage, click 'Ok'. Review the alarms and respond accordingly.
5. *Dispatch Radio:* The Campus Radio System is backed up by a separate generator and should remain operational through a power outage. If the radio fails, use the backup portable radio
6. *Emergency Phone:* In the event of a campus wide phone failure, the cell phone is available for all phone communication. Remember during a power outage, you cannot have anyone call the normal office phone number. Give out the cell phone number (616-217-3155) if it is important that the person calls you back.

MOP 7 EMERGENCY PROCEDURES

Power Outage: STREET AND PARKING LOT LIGHTS

If a single light is out, it is most likely just burned out. For these types of problems involving single lights, you should notify Facilities by submitting a work order.

If several lights in the same area are out, CSS's and CSO's can refer to the Lighting Controls Book, kept in the Supervisors' Office. Advise them to go to the location indicated for the appropriate lighting controls and attempt to reset the breaker or flip the photocell control switch to bypass.

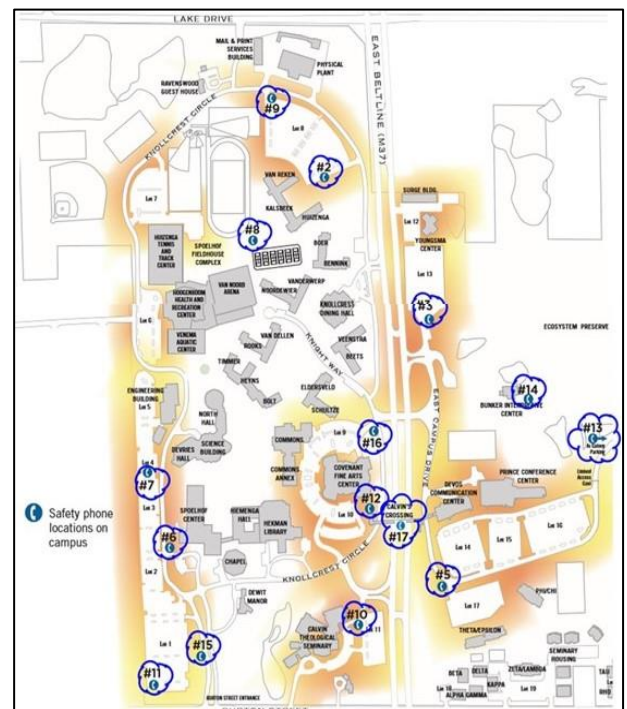

If these steps do not remedy the situation, and it is essential lighting, contact the on-call maintenance person, 616-828-6335, to report the outage.

MOP 7-3 SAFETY PHONES

There are blue emergency phones located all over campus. These phones are designed to be used to call to the Campus Safety Dispatcher for emergency assistance and escort service. This is a direct line; it cannot call anywhere else. If the information button is pressed the phone will ring into the non-emergency dispatch phone. If the emergency button is pushed the line will ring into the emergency dispatch phone. The phones have a time out period and will disconnect after a set time. If they do time out and disconnect, it is possible to call the number back to listen and see if anyone is there or you hear anything in the area.

Safety Phone Locations:

1. ~~None~~
2. ~~KH Lot East Side by Walkway~~
3. ~~East Beltline Lot, South Side~~
4. ~~None~~
5. ~~Foot Path along west side of Upper KE~~
6. ~~Southwest of Spoelhof University Ctr~~
7. ~~Lot 4~~
8. ~~Along Path near Tennis Courts & Track~~
9. ~~North Entrance to KH Lot~~
10. ~~Seminary Parking Lot~~
11. ~~SW Corner of Lot 1 near Burton Street~~
12. ~~East Side of Lot 10 by entrance to Calvin Crossing~~
13. ~~Ganey Parking Lot~~
14. ~~Along foot path, Southeast side of BIC~~
15. ~~Path along Southbound exit to Burton St.~~
16. ~~CFAC Lot 9 Entrance near underpass.~~
17. ~~Calvin's Crossing~~

MOP 7 EMERGENCY PROCEDURES

Safety Phone Call Protocol:

- 1) Answered:
 - Record safety phone number and extension from caller ID.
 - Gather caller's name, and situational information. Respond accordingly for emergency and non-emergency response as needed. Enter in the CAD.
- 2) No Answer:
 - Record safety phone number and extension from caller ID.
 - Send units for a Welfare Check of the area. "Dispatch to all units, I have a welfare check for safety phone # in (specific location) for an open line * repeat"
 - Pull up cameras in the area and notify responding units of any camera activity.
 - Call back the extension or do not hang up and listen. Notify officers (i.e. 'no-one heard in area, yelling heard in area, ...'). Enter in the CAD.
- 3) Disconnected Call:
 - Record safety phone number and extension from the caller ID.
 - Send units for a Welfare Check of the area. "Dispatch to all units, I have a welfare check for safety phone # in (specific location) for a disconnected call * repeat" Pull up cameras if in the area and notify responding units of any activity.
 - Call back the extension and listen to the surrounding activity. Notify officers (i.e. 'no-one heard in area, yelling heard in area...')
 - Enter all unit response in the CAD.
- 4) **Safety Phone Tests:**
 - The CSO's/CSS's test the Safety Phones on Sundays, Record the series of tests on the Safety Phone Checklist form located on the blue clipboard. Note in the comments if any do not work. Put the completed form in 9903's mailbox. Inform the Campus Safety Operations Analyst via email in the event the phone does not work. DO NOT enter a work order to CIT.

MOP 7 EMERGENCY PROCEDURES

MOP 7-4 MAN-DOWN ALARMS

Man-down alarms are received when a hand-held radio's orange panic button is pressed. The alarm is sent to Dispatch through the All Call/Talk channel. Any department radio can send out a man down button alarm, but Dispatch is the only one that receives an alert that the alarm was pressed. A quick response is vital for safety.

Man-Down Button Protocol:

- 1) Switch to Computer 3, to silence the alarm.
 - Click the dropdown arrow on the flashing triangle at the top of screen and press 'Remove'
- 2) Identify who pressed the Man Down button (Radio call sign will be flashing in the All Call/Talk channel window)
- 3) Attempt to make contact with that individual.
 - Respond over All Call/Talk channel: e.g. "Campus Safety Dispatch to Events Radio 3, I received your man down alarm. Is everything okay?"
- 4) If no answer is received:
 - Broadcast over All Call/Talk again, "Campus Safety Dispatch to Events Radio 3, I received your man down is everything okay?"
- 5) If still no answer is received:
 - If an officer, call the cell phone of the supervising officer.
 - If another department, call the department supervisor via radio: "Campus Safety Dispatch to Events Supervisor"
 - After response from the Supervisor: "Events supervisor the person with Events radio 3 pressed their man down button, do you know who has this radio and their location?"
 - No response from the Supervisor: Broadcast to all departments
 - Broadcast to all departments to start a search: "Campus Safety Dispatch to all departments, Events Radio 3 pressed their man down button. Please advise if you know their location and situation" *Repeat
- 6) If an answer is received:
 - Respond accordingly to emergency and non-emergency situations.
 - Change back to "All Call/Talk" channel by pressing box [~] in lower left corner and clicking 'All Call/Talk'
 - Switch back to transmit over the 'Campus Safety' channel

For radio numbers that appear without a department name, use this list to determine the department that the call came from:

Channel	Department	Radio Number
1	Campus Safety	1xx
2	Events	2xx
3	Service Desk (IT)	3xx
4	Plant	4xx
5	AV	5xx
6	Telcom – unused	6xx
7	Prince Conference Center	7xx
8	Kinesiology	8xx
9	Mail/Print – unused	9xx
10	Seminary	10xx
11	Mechanical	11xx

MOP 7 EMERGENCY PROCEDURES

MOP 7-5 PANIC ALARMS

Panic alarms are received when a panic button is pressed. Panic alarms are located around campus in the dorms, and department offices. The alarm is sent through Lenel Building and Map monitor. The building map will open to the location of the alarm and the panic button icon will turn red with a flashing 'alarm' showing above. Dispatch is the only one that receives an alert that the panic alarm was pressed. A quick response is vital for safety. All panic alarms require a response from an officer to check the area and reset the button.

Panic Button Alarm Response Protocol:

- Switch to computer 4 and mark the alarm 'in progress'
 - Identify the correct location and specific from the alarm description. The information under 'Input/Output' shows the most specific location.
- Dispatch all units to check the area. "Dispatch to all units. There is a Panic alarm at (specific location). Dispatch will attempt to make contact" * Repeat.
- Use the contact list at Dispatch to call the phone number at the location of the panic button and ask yes/no questions to determine if there is an emergency.
 - Answered received at location: Say "This is Campus Safety Dispatch, I received your panic alarm, is everything ok?"
 - NO:
 - "Are you feeling threatened?" YES
 - "Is there a weapon?"
 - "Officers are on their way."
 - Update responding officers with the information.
 - YES:
 - "Officers are on their way to reset the panic button"
 - Update responding officers with the information. Open CAD report.
- If applicable, check cameras in the area and advise responding officers of any activity.
- Advise the officers when the restoral alarm is received after they reset the panic button, document in CAD.
 - If no restoral alarm is received, then submit a work order and document in CAD.
- CAD incident type should be 'Alarm Response.' Detailed notes should include the alarm type, location/specific location, responding officers, updated information received via phone/radio/camera, situational outcome, and alarm reset. Remember to time stamp all information.

Documenting a Panic Alarm

- Call Source: Alarm
- Location and Specific Location: **Double check the location**
- Call Type and Priority: Alarm Response/High
- Dispatched Officers: Dispatched/En route/10-23/10-24
- Notes: Time Stamp, Alarm Description, Location, Specific Location, Units Notified
- Add Additional Info: Contact made with caller, False Alarm, Incident Contacts, Restoral Received
- Complete Call: Report Taken or False Alarm

MOP 7 EMERGENCY PROCEDURES

MOP 7-6 FIRE AND SMOKE ALARMS

Background

There are three types of smoke detectors on campus:

- Hard Wired – These alarms sound at Dispatch (computer 1; monitor 1)
- Replacement Battery
- Encased Battery

All KE apartments and KHvR have smoke detectors in each apartment that are connected to the building fire alarm system. All other residence hall rooms have battery-powered smoke detectors. However, ALL residence halls and academic buildings have smoke detectors in the hallways and basements connected to the building fire alarm system. If the hard-wired detector is beeping, an officer can reset it at the fire panel. If it does not reset, a Facilities work order will need to be submitted or call Facilities to fix it. If a battery should fail, officers may have batteries in their cars, or Facilities can be called to replace them. If a newer, encased battery detector needs to be replaced, there is a supply in the cabinet near the women's locker room at HQ.

IF FIRE ALARM IS RECEIVED

1. Dispatch all units. "Dispatch to all units. We received a fire/smoke alarm in (location). <Repeat>"
 - CSS/CSO will determine if the Fire Department needs to be contacted.
2. Be ready to call 911 if instructed by the Campus Safety Officer.
 - Verify the address location that the Fire Department needs to respond to by checking the address sheets in the Blue Binder. Follow instructions below for actual fire.
3. Record all information into CAD.
4. Notify the officer when the restoral alarm is received.
5. **NOTE:** If no actual fire, classify call as "Alarm Response."

IF A REPORT OF A FIRE IS RECEIVED VIA PHONE CALL:

1. Gather name of caller, call back number, location of the fire, and cause of the fire if known.
2. **If no fire, just cooking smoke:**
 - Advise the caller to open the windows to air out the area. Let the caller know that officers will be enroute to assist.
3. **If unsure or just smoke:** Dispatch all units to check the area. "Dispatch to all units. There is a fire alarm in (specific location), *repeat"
 - CSS/CSO will determine if the Fire Dept. needs to be contacted if the caller is unsure.
4. **If it is an actual fire,** find out how bad the fire is.
 - Fire Department needed? If yes, advise the caller to exit the building and pull the fire alarm on the way out to help evacuate the building.
5. If actual fire: Dispatch all units, "Dispatch to all units. There is a fire in (location/specific location/severity of fire/if building is being evacuated), *repeat" "Dispatch will contact 911."
6. Prior to calling 911, verify the address location that the Fire Department needs to respond to by checking the address sheets in the binder.
7. Direct one responding officer to the appropriate entrance that the Fire Department will be sent to for escort. **NOTE:** If the fire is at PCC, and the Fire Department dispatches a ladder truck, it WILL NOT fit under the campus Beltline underpass. Direct the unit to the north Beltline entrance by the Nature Preserve and notify officers.
8. Record all information into CAD.

MOP 7 EMERGENCY PROCEDURES

FIRE TROUBLE ALARM

The alarm will be beeping but may be due to a short or fault in the system. Dispatch officer to check and reset alarm.

LOCATIONS TO GIVE FIRE DEPARTMENT

Main Campus 3201 Burton S.E.

Direct Fire Department to enter at main Burton St entrance where you will send someone to direct them to the exact location (All Academic Buildings, DeVos Communication Center, Prince Conference/Lodging Center, Dining Halls, Residence Halls, DeWit Manor, Perkins, Service Building, **and Phi/Chi**).

Calvin Seminary 3233 Burton S.E.

Direct Fire Department to enter at the Seminary entrance at the intersection of Burton St and Raybrook where you will send someone to direct them to the exact location

Seminary Pres. Home 3335 Burton S.E.

Direct Fire Department to enter at the Seminary entrance 3233 Burton St. at the intersection of Burton St and Raybrook where you will send someone to direct them to the exact location

Knollcrest East Apts.:

Direct the Fire Department to enter at the appropriate entrance off Burton east of the Burton St East Beltline Intersection where you will send someone to direct them into the exact location.

EXACT ADDRESSES FOR UNIVERSITY BUILDINGS

Kuyper Hall	3511 Burton SE
Berkhof Hall	3521 Burton SE
Omega Hall	3555 Burton SE
Sigma Hall	3545 Burton SE
See additional addresses under MOP 8 Reference Section.	

SPECIAL INSTRUCTIONS for a Fire Alarm at MAIL AND PRINT SERVICES

The following are the procedures for a fire alarm in the MAIL/PRINT SERVICES BUILDING:

- When the fire alarm in the MAIL AND PRINT SERVICES BUILDING is activated, contact a Campus Safety Supervisor to come to the scene immediately.

The Mail & Print Services Building was constructed with special attention to fire suppression. The entire floor we are on has fire sprinklers installed. The staircase was specially constructed to prevent fire from entering the stairwell and in addition has fire sprinklers at the top and bottom of the stairs. In addition, the fire alarm system in this building will show the exact smoke detector, pull station, or water flow indicator that activated the alarm and display it on the fire alarm annunciator panel just to the right of the Comm Room door MP 204.

If the dispatch area needs to be abandoned due to fire, the evacuation procedures attached must be followed:

Fire Evacuation:

1. Notify units of the fire and that you are evacuating the area. 'Dispatch to all units there is a fire at HQ, dispatch will be evacuating the area *repeat'
2. Forward emergency lines (3333 and 911) to the cell phone
3. Take the cell phone, hand-held radio, and red emergency bag with you. Turn the radio on, it will automatically be on the Campus Safety channel.
4. Exit the building and move to a safe location away from the building. Pull the fire alarm on the way out if it is not alarming.
5. Record notes on the yellow notepad in the red bag.

Returning to Dispatch:

1. Remove the call forwarding to the cellphone
2. Turn off the hand-held radio and put it back in the charging station.
3. Back-log all written notes into CAD (Fire)

MOP 7 EMERGENCY PROCEDURES

MOP 7-7 AUTOMATED EXTERNAL DEFIBRILLATOR (AED) ALARMS AND INFORMATION

Calvin University has an Automated External Defibrillator (AED) Program on campus to make early defibrillation accessible to students, faculty, staff, and other persons who experience sudden cardiac arrest. Any time an AED is used on campus, an alarm comes in stating that an AED box has been opened and its location. A loud (not always loud) local alarm sounds at the AED location when the cabinet is opened. If an AED needs maintenance due to low battery or a faulty alarm, notify Environmental Health and Safety. After an AED is used, the EHS department needs to be notified which AED was used, and what hospital the person went to.

Protocol for AED Alarm:

AED ALARM RECEIVED IN LENEL

Computer 4 Monitor 3 (Location will also be on map on Monitor 2)

1. Mark alarm in progress.
2. Dispatch all units to the area, "Dispatch to all units, there is an AED alarm in (location/specific location) *repeat"
 - Make sure you are dispatching them to the correct location. In Lenel, the information in the farthest right column is the most specific location (i.e. 'Input/Output' column)
3. Pull up cameras in the area, if applicable.
4. Be prepared to call EMS, know where the best entrance onto campus would be, and the best entrance into the building prior to calling EMS.
5. Record all information in CAD under the call type 'Alarm Response'.

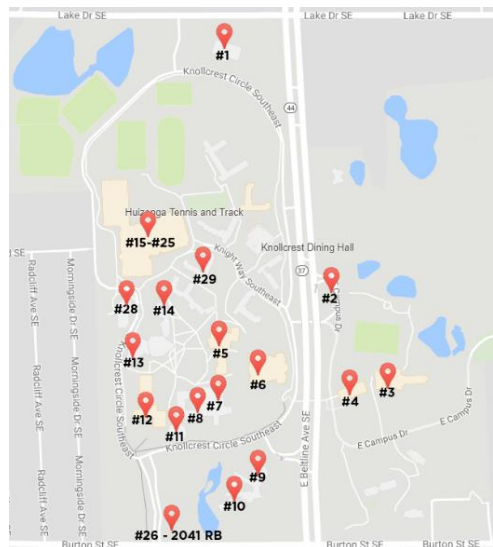

AED ALARM NOTIFICATION VIA CALLER

1. Gather the name of the caller, call back number, and specific location.
2. Ask the exact location of the alarm. Verify if a medical or if the box is just beeping.
3. No medical, box just beeping:
 - a. Advise the caller that an officer will come and check the area. Dispatch patrolling officer to check, "Dispatch to 99xx, there is an AED box beeping in (specific location), caller advised there is no medical in the area.
 - b. If the box has a low battery, the officer or Facilities can handle it. If the box needs maintenance, submit a work order to Facilities.
4. Yes, a medical:
 - a. If yes, get the specific location of the medical.
 - b. Ask if the patient is conscious, breathing (breathing normally), bleeding, alert/oriented
 - c. Dispatch all units, "Dispatch to all units; there is a medical in (specific location). An AED is being used for (description of patient and symptoms). Dispatch will contact 911, *repeat"
 - d. Call EMS. Advise them that officers are en-route to assess. Give them the location to enter onto campus where an officer will escort them in. Provide them with all of the patient specific information that you have.
5. Notify officers when you are off the line with EMS, document it in CAD. Direct one responding CSS/CSO to the entrance that EMS will be sent to escort them in.
6. Record all information into CAD under 'Medical'.

MOP 7 EMERGENCY PROCEDURES

AED Locations in LENEL (Note: Each Campus Safety vehicle is equipped with an AED)

1. Service Building lobby (alcove leading from lunchroom to warehouse)
2. Prince Conference Center entrance
3. DeVos Communication Center entrance
4. Johnny's (on the column by the store entrance)
5. CFAC lobby (1st floor across from Art Gallery – S. wall of the hallway)
6. Hekman Library main entrance (2nd floor to the right by Rhetoric Center)
7. Hekman Library (3rd floor where Hekman joins Hiemenga Hall)
8. Seminary (Student lounge on ground floor)
9. Seminary southwest (Burton) entrance
10. Chapel narthex (on a column on the west side)
11. Spoelhof Center lobby (west side wall)
12. DeVries Hall (1st floor atrium near the elevator)
13. North Hall (1st floor across from Science Division office)
14. SFC (1st level hallway near HC 107)
15. SFC (1st level north side of climbing wall base)
16. SFC – four units (1st level Athletic Trainer's Office – VN 137)
17. SFC (1st level Athlete's Fitness Room – VN 110)
18. SFC Aquatic Center (2nd level main entrance)
19. SFC Fitness Center (2nd level just inside entrance – SF 201)
20. SFC Arena Entrance (2nd level across from Men's room – near VN 241A)
21. SFC (2nd level NE corner across from men's bathroom – near VN 221)
22. SFC Tennis and Track Center (main reception desk – by TT 105)
23. SFC Health Services (back hallway near north entrance)
24. SFC Venema Aquatic Center – Poolside office
25. Engineering Building (south wall by east entrance)
26. Rooks/Van Dellen Residence Hall lobby

MOP 7 EMERGENCY PROCEDURES

MOP 7-8 SUICIDES/ATTEMPTED SUICIDES

CALL FROM A THIRD PARTY:

- 1) Get the caller's name, call back number, location/specific location.
- 2) Get the name, sex, age, location/specific location of the student in need of assistance
- 3) Gather situational information:
 - a. Is the caller presently with the student?
 - b. If so, is the student conscious, breathing (breathing normally), bleeding, alert/oriented (can they tell you their name and specific location)?
 - c. Did the student do anything to harm themselves (bodily injury, ingestion of anything)
 - d. Ask if emergency assistance is needed.
- 4) Keep the caller on the line and ask them to stay with the student until officers arrive.
- 5) DO NOT communicate complete names or sensitive information over the radio. Example of a dispatch would be, "Dispatch to all units, we have a welfare check with [harm/possible harm] in [location]. First name is [name]." <Repeat>. And if necessary, "Dispatch will call on cell with additional details." OR "Emergency response has been requested. Dispatch will contact 911.
- 6) Residence Life can be contacted 24-7 using the on-call number highlighted in our blue binder under the Student Life tab. In serious circumstances like this, please call this number rather than attempting to contact a specific person. This is the quickest way to get assistance. The person answering the on-call phone will also know how to contact the on call social worker if needed.
- 7) Notify the caller that units are enroute, and get an update of the subject's status (notify officers if there is a change in status)
- 8) EMS requested:
 - a. Notify the caller that you will be on the line with EMS, and to advise if the student's status changes
 - b. Call 911. Advise them that you are Calvin University Campus Safety Dispatch, and you need medical assistance to (give campus entrance for EMS to respond to where officers will escort them in). Pass on the medical information (patients age, sex, medical symptoms).
 - c. Notify EMS if emergency assistance is needed for medical, or if non-emergency transport is needed for a psychiatric evaluation (**request that they come no lights/no sirens for a psych eval**).
 - d. Notify officers when off the line with 911, and that Life EMS are enroute.
 - e. Record all times in CAD.
- 9) EMS NOT needed
 - a. Gather additional medical information from the caller. (ask if the subject states that they want to end their life, if they have a plan to, if they have a history of feeling this way, and if they are on any current medications)
 - b. Notify officers of any additional information
- 10) Call the RD on call to advise of the student's situation, and if they are going to be transported for a psychiatric evaluation or if they are going to be transported to the hospital for medical care.

MOP 7 EMERGENCY PROCEDURES

CALL FROM A PERSON HAVING SUICIDAL THOUGHTS/ATTEMPT:

- 1) Get the caller's SPECIFIC LOCATION, name, and call back number.
 - Use the caller's first name while talking to them in a calm tone.
- 2) Gather situational information:
 - Ask, "Do you feel like you want to end your life?"
 - Ask, "Have you done anything to harm yourself?"
 - Is Yes: "What have you done?" [is there bodily injury, ingestion of anything, what they ingested/how many/how long ago; are they bleeding, alert/oriented (can they tell you their name, where they are), are they having trouble breathing?]
 - If No: "Do you have plans to harm yourself? "Do you have any weapons in your possession?"
- 3) Notify the caller that an officer is able to meet with them to help and ask if they are willing to talk with them.
 - If the caller says that they do not want to talk to an officer, if they become agitated or aggressive, or if they disconnect the call, immediately notify the officers
- 4) Dispatch officers:
 - Keep the caller on the line. Ask them an open-ended question to get them talking (such as, "what are some of the things in your life that have made you feel the way you do?" Put them on Mute and dispatch officers: "Dispatch to all units, we have a welfare check with [harm/possible harm] in [specific location]. First name Joe." <Repeat>. And if possible, "Dispatch is online with subject and will update accordingly." Give additional information if critical (patient is conscious, breathing, bleeding ...) or if emergency response required.
- 5) Note: As officers respond on radio, attempt to mute the call so that the individual is not hearing the background radio chatter.
- 6) Tell the caller that it is brave of them to call, that they are not alone, and officers will be there soon to help.
 - Ask the caller if they have a history of having suicidal feelings, history of depression or anxiety, or taking any current medications. Update officers on any information received via cell phone.
- 7) EMS requested: (by officer, caller, or if their symptoms warrant automatic call for EMS)
 - Notify the caller that you will be on the line with EMS, and that you can hear them if they need to tell you anything.
 - Call 911 advise them that you are Calvin University Campus Safety Dispatch, and you need medical assistance at (give campus entrance location for EMS to respond to where officers will escort them in). Pass on the medical information (patients age, sex, medical symptoms).
 - Notify EMS if emergency assistance is needed for medical, or if non-emergency transport is needed for a psychiatric evaluation (request that they come no lights/no sirens for a psych evaluation).
 - Notify officers when off the line with EMS, and that that they are enroute.
 - Record all times in CAD.
- 8) Call the on-call RD number to advise them of the situation, and if they are going to be transported for a psychiatric evaluation or if they are going to be transported to the hospital for medical care.
- 9) Record all information in CAD under the call type 'suicide-attempt'

MOP 7 EMERGENCY PROCEDURES

If any call is received stating that a suicide (10-97) was completed and there is a death investigation, notify officers immediately. Do not say 'death or dead' on the radio, say "Dispatch to all units, there is a 10-97 completion in the (location/specific location) additional information will be passed via cellphone. Dispatch will be on the line with EMS. <Repeat>. Call the supervising officer's cell phone and advise of all information received on the deceased patient. Notify EMS, 9901, RD on-call, and the correct university official contact listed below depending on a Calvin student, Seminary student, or Staff/Faculty. Record all information in CAD as a 'death investigation'.

Calvin Students:

	Cell Phone	On-Campus
Sarah Visser - V.P. of Student Life	626-221-0769	66453
Bill Corner - Dir. of Campus Safety	446-3927	66751

CENTER FOR COUNSELING AND WELLNESS (aka Broene) Mental Health Resources

Appointments for student is available by:

- Filling out an online form at <http://www.calvin.edu/go/counseling>
- Emailing counseling@calvin.edu
- Calling the office at 616-526-6123.

Students who are currently residing out of state can access crisis stabilization or consultation through local resources.

Students are encouraged to stay connected with digital mental health resources, such as:

- Therapist-Assisted Online (<https://us.taoconnect.org/register>)
- Calvin Unmasked (<https://calvin.edu/offices-services/counseling-and-wellness/services/peer-listeners/>)
- A collection of apps & websites related to mental wellness (<https://calvin.edu/offices-services/counseling-and-wellness/resources/self-help-resources/>)
- **Emergency mental health is available 24/7 through the contacts listed at <https://calvin.edu/offices-services/counseling-and-wellness/emergency-assistance/>.**

MOP 7 EMERGENCY PROCEDURES

MOP 7-9 BOMB THREATS

Bomb Threat Protocol:

BOMB THREAT RECEIVED VIA TELEPHONE:

- 1) LISTEN, do not interrupt the caller, keep them talking. Write down everything they say.
- 2) Use the Bomb Threat Checklist on the clipboard next to the emergency phone to gather information as they are talking.
 - Write down the time of the call, date, and phone number.
 - Write down plausible demographics (do they sound male/female, older/younger)
 - Write down their name or who they identify with, if given
 - Denote specific background noises, and characteristics of their speech
 - Write down everything they say (where the bomb(s) is located, time it will detonate, type of device, how many there are, the reason for placing the bomb(s))
- 3) While the caller is on the line, put the call on mute and notify the officers. "Dispatch to all units there is a 10-68 threat at (location/specific location), dispatch is on the line getting further information. *repeat"
- 4) Be prepared to call 911 if instructed to do so by the CSS/CSO.
- 5) If after normal business hours, the CSS/CSO may tell you to contact at least **ONE** of the following: (In this order)
 - Bill Corner, Director of Campus Safety 616-669-3544
 - Tyson Moore, Assistant Director of Campus Safety 616-292-3046
 - John Witte, Dean of Resident Life 616-460-7746
- 6) If the threat is to a specific dorm, be ready to call that R.D. or R.A. IF requested by one of the persons above.
 - The decision to evacuate a building will be up to the administration.
- 7) Record all information into CAD under 'Bomb threat'.

MOP 7 EMERGENCY PROCEDURES

BOMB THREAT RECEIVED FROM A THIRD PARTY:

- 1) Gather the name, call back number, and location/specific location of the caller.
- 2) Get the exact time the call came into them, the number/device they received it on, and the number it came from.
- 3) Ask them to repeat exactly what the bomb threat caller said to them.
- 4) Use the Bomb Threat Checklist on the clipboard next to the emergency phone to gather information as they are talking.
 - a. Ask them plausible demographics (did they sound male/female, older/younger)
 - b. Ask them if they gave their name or who they identified with, if given
 - c. Ask them if they heard specific background noises, and characteristics of the caller's speech
 - d. Write down everything they say (where the bomb(s) is located, time it will detonate, type of device, how many there are, the reason for placing the bomb(s))
- 5) While the caller is on the line, notify the officers. "Dispatch to all units there is a 10-68 threat at (location/specific location), dispatch is on the line getting further information from the caller who received the information*repeat"
- 6) If the caller advised that the bomb threat location was for the same location as the building they are in, then tell them, "Do Not use your cell phone, Turn Off all cellphones or anything that can transmit a signal. Please leave the building and meet an officer outside. An officer is on the way."
- 7) Be prepared to call 911 if instructed to do so by the CSS/CSO.
- 8) If after normal business hours, the CSS/CSO may ask you to contact at least **ONE** of the following: (In this order)
 - Bill Corner, Director of Campus Safety 616-669-3544
 - Tyson Moore, Assistant Director of Campus Safety 616-292-3046
 - John Witte, Dean of Resident Life 616-460-7746
- 9) If the threat is to a specific dorm, be ready to call that R.D. or R.A. IF requested by one of the persons above.
 - a. The decision to evacuate a building will be up to the administration.
- 10) Record all information into CAD under 'bomb threat'.

MOP 7 EMERGENCY PROCEDURES

MOP 7-10 CARD WATCH

Card Watch is a way to monitor card access activity through Lenel Building and Map Alarm monitor. Student or staff card access is set to card watch for safety or disciplinary reasons. This can be requested by different departments and set in the system by 9901, 9902, or 9903.

Card Watch Response Protocol:

- 1) Switch to computer 4 and mark the alarm 'in progress'
 - a. Identify the correct Card Watch to check for response information (i.e. under Alarm Description it says, for example, 'CardWatch2')
- 2) Locate the response protocol for the specified Card Watch from the information posted on the bulletin board
 - a. Gather the needed information for response:
 - Name of who is on Card Watch
 - Contact instructions of who to notify
- 3) If Card Watch indicates, dispatch officers.
- 4) Search the person who is on Card Watch in Lenel to find out the last location and time their card was used
 - a. On Lenel, click the faces icon 'View Badge Information' to open the Cardholders window
 - b. Click 'Search' on the Cardholders window
 - c. Enter the last and first name of the person on Card Watch, then click <OK> or press enter
 - d. Get the last location/date/time and access granted/denied that card access was used from the information box underneath the cardholder's picture
- 5) Respond accordingly, as per specified instructions.
 - a. If officers need to respond, keep the information confidential and do not share the card holders' name over the radio. Advise officers by saying, "Dispatch to all units Person on Card Watch (1,2,3) last accessed the (location/specific location)" * Repeat
- 6) Start a CAD call. Enter all information under 'Alarm Response' with detailed notes of the alarm type (Card Watch), location/specific location, responding officers, and information regarding the specific response protocol for that Card Watch in the 'Notes' section. Remember to time stamp all information.
- 7) Bring up cameras in last location area and pass along a description of the individual, if possible.

MOP 7 EMERGENCY PROCEDURES

MOP 7-11 MEDICALS

Reports of a medical can come into Dispatch by the emergency and non-emergency phone lines, over the radio, by email notification, and by notification from local 911 Dispatcher via the phone or hearing units called to campus over the police scanner. Medical calls can range from non-emergency first-aid to emergency requests requiring EMS response. Medical calls can also evolve from other calls (i.e. from a welfare check to a 10-97). It is important to be vigilant with every source of information received to provide a quick response to those in need.

Medical Response Sheets are used when taking any medical emergency call to assist in gathering information. The form has been designed to include the information that the medical dispatchers need to know how to tell the responding emergency units to proceed. Be sure to look this over. Be ready to ask the medical questions that are included on the form from those calling or from the Campus Safety Officers responding before calling 911 if asked. When on the phone with a 911 dispatcher and they wish to talk directly with the responding officer, advise them that the officer is only in radio contact with you currently. Advise the 911 dispatcher that you will relay the information to the responding officer.

Medical Response Protocol:

- 1) Gather the minimal required call information:
 - Caller name
 - Call back number
 - Location/specific location
 - Situation
- 2) Gather specific call information to determine severity of the call. If unknown from the initial conversation, ask the caller is the patient:
 - Conscious or unconscious?
 - Breathing?
 - Breathing normally or abnormal (slow and shallow, rapid, wheezing)
 - Alert and oriented?
 - Can they tell you their name, where they are, what day it is ...?
 - Trauma or bleeding?
 - Where are they bleeding?
 - Does the bleeding slow when pressure is applied?
- 3) ***If the patient is unconscious and not breathing or having difficulty breathing, or if there is severe bleeding/injury, then EMS needs to be contacted right away. Call 911 right after you dispatch officers to the scene, advise the officers that you will be on the line with 911***
- 4) Dispatch all units to the area "Dispatch to all units. There is a medical at (location/specific location) for a (situation description)." * Repeat
 - For example, "Dispatch to all units. There is a medical in the Science Building, Room 162 for a female student conscious, alert, having difficulty breathing, no trauma." *Repeat
 - Or... "Dispatch to all units. There is a white male in his 40s on the Knollcrest Circle Drive sidewalk near Lot 4 unconscious, shallow breathing" *Repeat. "Dispatch will be on the line with EMS."

MOP 7 EMERGENCY PROCEDURES

- 5) EMS not needed: Notify the caller that units are enroute and get an update of the patient's status (notify officers if there is a change in status). Keep the caller on the line until officers arrive.
- 6) EMS requested:
 - Notify the caller that you will be on the line with EMS, and to advise if the patient's status changes
 - Call 911 and advise them that you are Calvin University Campus Safety Dispatch, and you need medical assistance to (give location for EMS to respond to where the officers will escort them in). Pass on the medical information (patients age, sex, medical symptoms).
 - Notify officers when off the line with EMS, and that that they are enroute.
 - Record all times in CAD.
- 7) Hang up with the caller only after an officer arrives on-scene (not just at the building)
- 8) Status checks for the officers within 1 – 3 minutes of arrival with a patient update
 - No information passed upon arrival: Say, "9909 Status Check". Wait for a response and add any information that they pass on into CAD. If no answer, wait a minute and do another status check. Record into CAD.
 - After the initial status check, additional status checks can be done every 5-10 minutes depending on severity.
- 9) Call the RD on call to advise of the patient's situation if they are going to be transported to the hospital for medical care.
- 10) Record all information in CAD under the call type 'medical'

MOP 7-11a MEDICALS – Injured Employee

If a non-life-threatening injury occurs with a Calvin employee **while working – including a student worker** – the protocol is to refer them to the closest MED-1 location.

MOP 7-12 SEVERE WEATHER

Occasionally the arrival of spring and summer is accompanied by periods of severe weather. To minimize the possibility of personal injury and property damage, the National Weather Service and the Office of Emergency Services have developed an early warning system. This early warning information also serves as an assurance that weather conditions are being intelligently observed and promptly reported.

The Campus Safety Dispatcher has a weather monitor to keep us informed of weather conditions. Weather alerts also come to Dispatch Email. In the event a Tornado Warning is declared by the National Weather Service, Dispatch will disseminate this information through AppArmor. The decision to terminate a class or activity, to close the library, or close any office will be the responsibility of the Office of the President.

MOP 7 EMERGENCY PROCEDURES

Severe Weather Protocol:

SEVERE THUNDERSTORM WATCH:

- 1) Notify officers of the severe thunderstorm watch. 'Dispatch to all units. The National Weather Service has issued a severe thunderstorm WATCH for our area until [TIME].'
*Repeat message.
- 2) Monitor the weather on the radar. Update officers as needed.

SEVERE THUNDERSTORM WARNING:

- 1) Notify all radios via All Call/Talk. "Campus Safety Dispatch to all radios. The National Weather Service has issued a severe thunderstorm WARNING for our area until [TIME]."
*Repeat message.
- 2) Get authorization from CSS to send an APP ARMOR message to groups "Calvin University" and "Calvin Seminary." *NOTE: Alerts for Thunderstorm Warnings are not sent between 12:00am-7:00am.*
- 3) **SEND** and **PUSH** an APP ARMOR message according to the time of day.
- 4) Monitor weather on radar and update all radios of change in weather status.
- 5) When alert has been cancelled, send an updated APP ARMOR 'Weather Alert Canceled' message.

TORNADO WATCH:

- 1) Notify all radios via All Call/Talk. "Campus Safety Dispatch to all radios. There is a tornado watch in our area until [TIME]."
*Repeat message.
- 2) Get authorization from CSS to **SEND** and **PUSH** an APP ARMOR message to groups "Calvin University" and "Calvin Seminary."
- 3) Monitor weather on radar and update officers of change in weather status.
 - If the officers report a funnel spotting, upgrade response protocol to a Tornado Warning.
- 4) When alert has been cancelled, send an updated APP ARMOR 'Weather Alert Canceled' message

TORNADO WARNING - CAMPUS SAFETY Evacuation Procedure:

- 1) Notify officers of the Tornado Warning and that you will be evacuating the dispatch area. "Dispatch to all units, there is a tornado warning for our area until [TIME]. All units should seek shelter. Dispatch will be sending a APP ARMOR message and evacuating the area. Request permission to press Emergency TAKE SHELTER Button"
*Repeat message.
- 2) Press the Blue TAKE SHELTER button once approved.
- 3) If during regular business hours, notify all radios via All Call/Talk. "Campus Safety Dispatch to all radios. There is a Tornado Warning in our area until [TIME]. All personnel should seek shelter."
*Repeat message.
- 4) **SEND** and **PUSH** an APP ARMOR message according to the time of day.
- 5) Forward emergency phone lines (3333 and 911) to the main line (which rings on cell)
 - Press the left arrow key next to 6333 and press "Forward all" then type dispatch extension (66452).
 - Repeat for 911 line.

MOP 7 EMERGENCY PROCEDURES

- 6) Seek shelter in the bathroom of the MP warehouse. Take the red emergency bag, cell phone, green portable radio, and hand-held radio with you. Turn the radio on.
- 7) If you do not get radio or cell connection from the bathroom, you may have to stand outside the bathroom door in the warehouse area. If so, be alert to any sounds like a train approaching and take cover in bathroom, if necessary.
- 8) Record all notes on the yellow notepad.

RETURNING TO DISPATCH

- 1) Turn off the hand-held radio and put it back in the charging station.
- 2) Notify officers of your return to dispatch and send an All-Clear message in APP ARMOR
- 3) Back-log all written notes into CAD.

TORNADO WARNING ADVISORY – KENT COUNTY

- 1) If Dispatch receives notification of a tornado warning in Kent County **but not in Grand Rapids area**, contact the supervising officer to determine if they would like an alert sent out.
- 2) If yes, notify all radios via the All Call/Talk channel. "Campus Safety Dispatch to all radios. The National Weather Service has issued a tornado warning for Kent County until [TIME]. Campus is presently not in the affected area." *Repeat message.
- 3) Edit and send the APP ARMOR message 'Advisory Tornado Warning Kent County'.
 - Monitor weather radar and update officers of any changes in weather status.
 - If officers report a funnel cloud, upgrade response protocol to a Tornado Warning.
- 4) Once cancelled, notify all departments via the All Call/Talk channel. "Campus Safety Dispatch to all departments. The weather alert issued by the National Weather Service for our area has been canceled." *Repeat message.
- 5) Send the APP ARMOR message Weather Alert Canceled' (verify the same recipients)

MOP 7-13 SUSPICIOUS SITUATIONS

When a suspicious person or vehicle report is received at Dispatch, be sure to use the Suspicious Person form and gather as much information as possible. Ask questions who, what, where, when? Officers may need to talk to the person calling for follow up or clarification. Be sure to get information on where and how to contact the caller. Dispatch an officer to the scene if the situation is presently active.

REPORT OF A SUSPICIOUS PERSON(S)/SITUATION:

1. Get the caller's name, call back number, location.
2. Gather situational information:
 - a. Reason/activity that is suspicious.
 - b. Head to toe description of the suspicious person(s)
 - c. Location, time frame (still at the location or how long ago they left the area)
 - d. Route and direction of travel
3. If the caller is feeling safe and has a visual on the suspicious activity/person, ask them to stay on the line until officers arrive to update you of any changes.
4. Dispatch all units to the area "Dispatch to all units, there is a (suspicious persons/situation) (head to toe description) in the (location), last seen (time frame), direction of travel.
5. Pull up cameras in the area if applicable.
6. Record all information in CAD under the call type 'suspicious persons/situation'.

MOP 7 EMERGENCY PROCEDURES

MOP 7-14 ACTIVE SHOOTER / AGGRAVATED ASSAULT WITH WEAPON

Every member of the Campus Safety Department is responsible for knowing this procedure, so they are prepared to knowledgeably respond to an active shooter scenario within the scope of their training and authority.

The purpose of this procedure is to establish a protocol for Campus Safety Department personnel regarding incidents involving active shooters. This procedure applies to all armed Campus Safety employees in terms of an actual and physical response to an active shooter. Unarmed Campus Safety employees (including Dispatchers) and Emergency Liaisons also play a valuable role by helping direct people to safety, assisting in the administration of first aid away from the scene, helping to relay critical information, and coordinating/assisting with emergency responders from other agencies.

Protocol for Aggravated Assault with a Weapon (Active Shooter)

- 1) The “Active Shooter” tab in the Blue Binder or on the clipboard at Dispatch will guide you through steps 2-9.
- 2) Get the caller’s name, location/specific location, call back number
- 3) Gather suspect information:
 - a. Head to toe description of the suspect(s)
 - b. Specific location of the suspect(s) and route/direction of travel.
 - c. Time frame (still at the location or how long ago they left that area)
 - d. Weapon (what type, how many)
 - e. Anyone injured (type of injury, their location)
- 3) Dispatch all units to the area “Dispatch to all units, we have a report of an aggravated assault with weapon in/at (specific location). Suspect is described as [head to toe description] last seen (time frame)/ direction of travel with a (weapon type). <repeat>
- 4) Call 911 and give detailed information “This is Calvin University Campus Safety Dispatch; we need officer assistance to 3201 Burton St. (*or specific address). We have a report of an aggravated assault with weapon. Suspect is described as [head to toe description] last seen at [time frame, direction of travel] with a [weapon type]. I have officers responding.”
- 5) After hours, notify 9901 or 9903 (they will contact the other person)
- 6) If possible, a second Dispatcher should be acquired.
- 7) Pull up cameras in the area
- 8) WITH SUPERVISOR APPROVAL Lockdown the campus by pressing the yellow or red button as advised.
- 9) Notify all departments of Lockdown on the All Call/Talk channel, “We have a report of an aggravated assault with weapon. Suspect is described as [head to toe description] last seen at [time frame, direction, and route of travel] with a [weapon type]. Officers are responding. Seek an area of safety and secure yourself.
- 10) Advise officers that the Lockdown button was pressed, and the doors were set to their secured card reader status (yellow), or to locked (red).
- 11) Send emergency notification messages to ‘All’ persons Campus Wide ‘Violent Criminal Behavior Lockdown’.
 - a. Add the information specific to the situation, “We have a report of an aggravated assault with weapon. Suspect is described as [head to toe description] last seen at

MOP 7 EMERGENCY PROCEDURES

[time frame, direction, and route of travel]. Do not enter campus. If you are on campus, seek an area of safety and secure yourself and others inside. Await further instructions.”

- 12) Record all information in CAD under the call type ‘aggravated assault w/weapon’
- 13) Provide updated information received from incoming calls about the situation/suspect location to the officers and record in CAD.
 - a. Any calls received from people on campus during the emergency: gather their location, updated suspect(s) location/description, location of wounded. Advise them to seek an area of safety; secure themselves inside and await instructions.
 - b. Any calls received from people off-campus seeking information: advise callers that there is an emergency on campus, do not enter campus, emergency notifications will be sent out with updated information. Then disconnect the call.
 - c. Any calls from the media: advise them to contact media relations.
- 14) Send an updated emergency notification messages to ‘All’ persons Campus Wide ‘Violent Criminal Behavior Lockdown’ as situation changes.
- 15) Provide updated information received from incoming calls about the situation/suspect location to the officers, record in CAD. **Officer safety and radio traffic is a priority.**

Lockdown Procedure Detail

In the event where the campus needs to be locked down, Campus Safety is equipped with emergency buttons in Dispatch that can change all interior and exterior card reader statuses campus wide. The decision to lock down the campus will be under authorization from the CSS/CSO or command staff (9901/9903). DO NOT press the lockdown button without authorization. A campus-wide lockdown can also be initiated by pressing the lockdown button in Dispatch or right clicking and pressing ‘execute’ on the ‘Global Lockdown’ icon on the Lenel map for MP level 2. If a threat is targeted at one specific building, a single building lockdown can be initiated by clicking on the Lenel map building lockdown icon. This will only lock down the card readers to that building. To restore all card readers back to their original settings, and with permission from the supervising officer, the green “All Clear” button can be pushed.

Lockdown Buttons

Yellow: Used for external threats, changes card readers to ‘card only’. Students/Staff/Faculty will have access into buildings with their ID cards.

Red: Used for internal threats, changes card readers to ‘locked’. ONLY Campus Safety staff will have access to buildings with their ID cards.

Blue: Used for situations when everyone on campus needs to take shelter in a building (i.e. tornado warnings). This changes all exterior card readers to ‘unlocked’.

Green: Resets the system back to pre-lockdown status.

Note: Upon Arrival of Outside Agencies’ Tactical Teams:

When the Grand Rapids Police, East Grand Rapids Public Safety, Kentwood Police, Kent County Sheriff Department and/or Michigan State Police tactical teams arrive, they are better equipped and trained to resolve crisis scenarios. However, due to the possible size and scope of an active shooter scenario at Calvin University, continued assistance by first responders from the Campus Safety Department is critical. As soon as practical, Incident Command will be established, and the Incident Commander may direct Campus Safety employees to:

MOP 7 EMERGENCY PROCEDURES

- a. Coordinate and relinquish React Team responsibilities, unless continuing is deemed necessary by tactical team personnel. **NOTE: The Grand Rapids Police Department will most likely imbed a Campus Safety employee with their react team as an information resource while a building search is being conducted.**
- b. Assist with containment responsibilities
- c. Assist with Rescue Teams if necessary
- d. Direct Tactical Team officers to last known suspect(s) location
- e. Direct explosives experts to location of explosive device(s)
- f. Provide any pertinent information such as known suspect descriptions, weapons, etc.

Note: There is a “Go Box” on the wall by the cabinets outside the officer’s office. This box contains master keys needed by outside agencies. Tactical teams should also receive a radio and door access cards in an emergency scenario. Go Box codes are 0911, 0912, etc.

MOP 7-15 GAS LEAKS/ODORS, HAZMAT SPILLS, CARBON MONOXIDE ALARMS

1. Record the following information
 - a. Name of caller and phone number
 - b. How strong is the odor strong (1=faint; 10=very strong)? Constant/intermittent?
 - c. Are there any hissing noises?
 - d. How long has odor been noticed?
 - e. Specific location of odor. Is it localized? Inside? Throughout the building?
 - f. Are there any automatic light units in the area?
2. Inform caller to open windows if possible and do not light a match or use any electrical devices or turn on any lights.
3. Dispatch officer to scene.
 - “Dispatch to all units, there is a (mild/strong; inconsistent/consistent) gas leak/odor in (specific location, area, or building).” *Repeat. “Dispatch will contact Facilities.”
4. Call Facilities Emergency “Mechanical” number with details.
5. Be prepared to contact DTE emergency number if requested (see Blue Binder, Emergency tab).
6. For additional instructions, refer to the ‘Campus Safety Dispatch Gas Leak/Odor Response Plan’ below.

If you end up calling the DTE emergency line, identify that you are calling from Calvin University and state the specific nature of the reported leak/odor. These are some of the questions they will ask you:

- What is the location of the leak?
 - Response: Give them the 3201 Burton address and instruct their responding unit to call dispatch when they arrive; an officer will come to meet them as soon as they arrive and escort them to the specific location on campus. Let them know that an officer and/or a member of our Facilities Team is on the scene or have been notified.

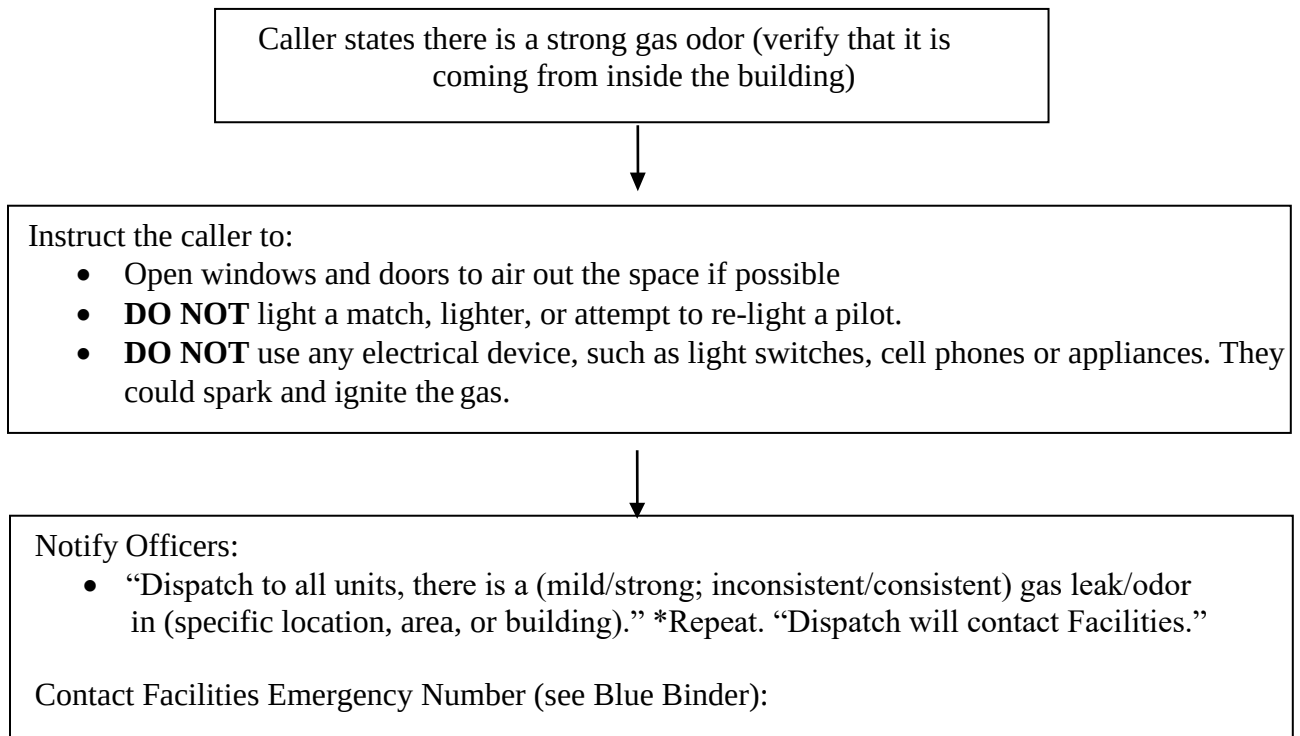

MOP 7 EMERGENCY PROCEDURES

- Is the odor strong? Steady? Intermittent?
- Are there any hissing noises?
- Is the odor coming from inside or outside the building
- How many individuals are in the area?
- Are there any automatic light units in the area?
- Are there any electronic doorbells in the area?
- They will ask for your name and call back number.

Once they have all of the information, they will repeat it back to you to confirm and give you instructions for not using cell phones, light matches, etc. They will dispatch their closest unit.

See below for a flow chart of response protocol.

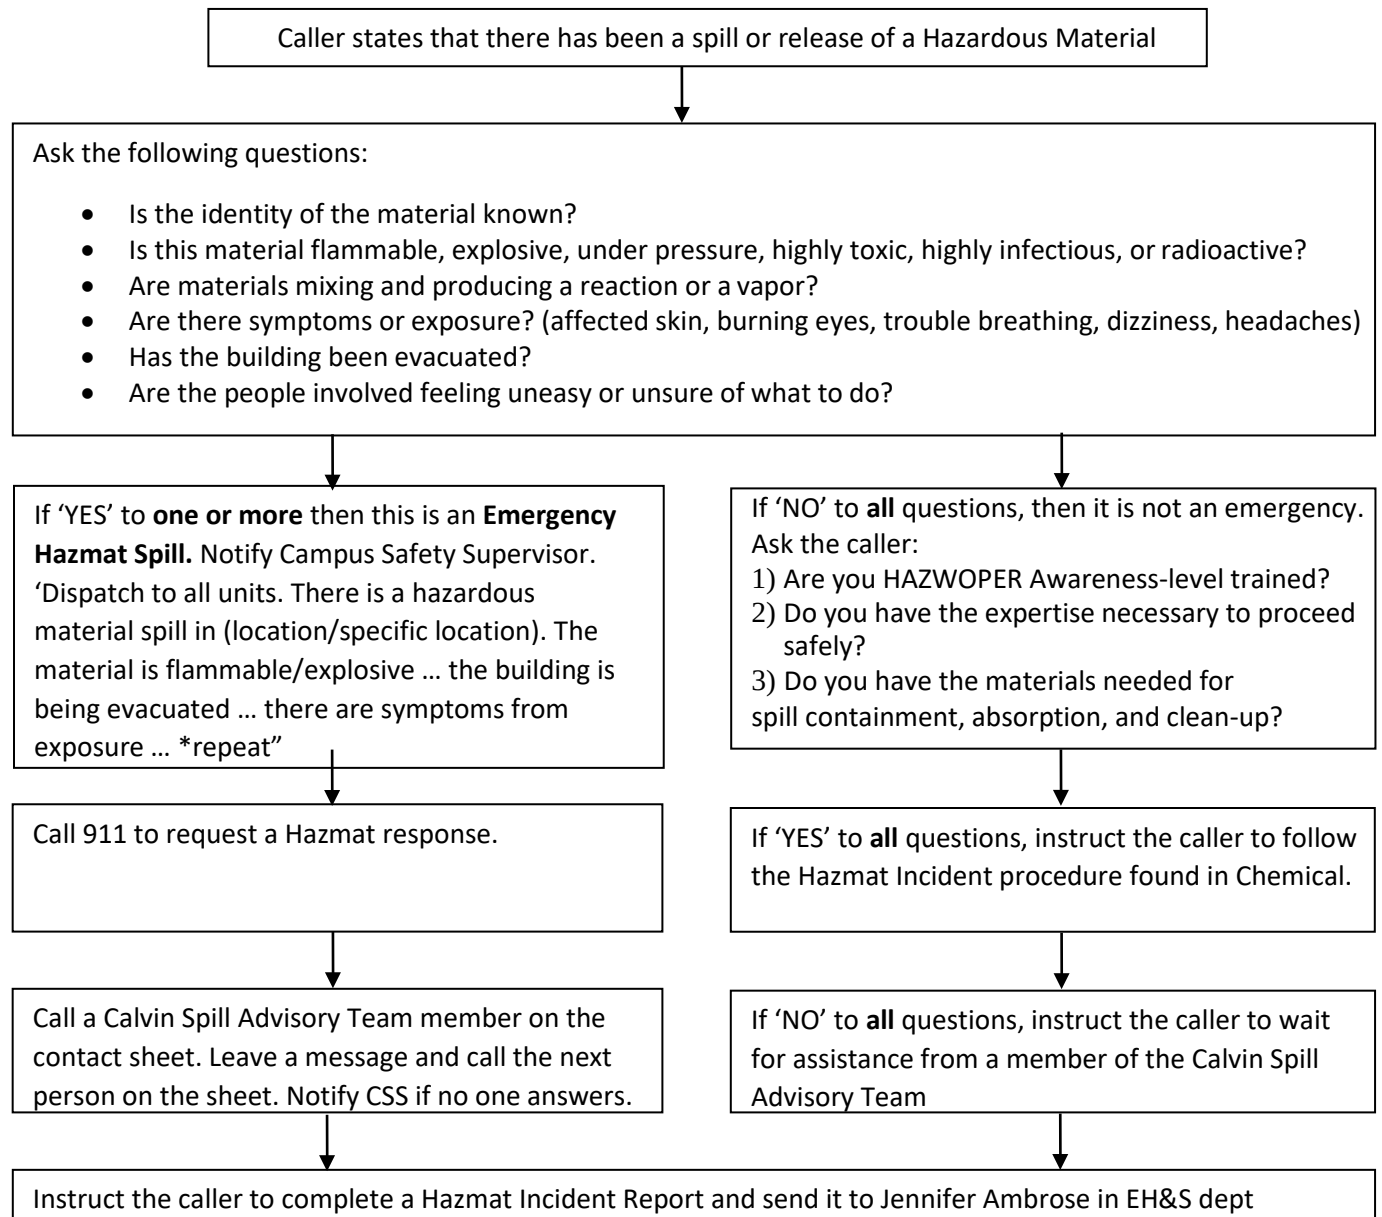

CAMPUS SAFETY DISPATCH GAS LEAK/ODOR RESPONSE PLAN

MOP 7 EMERGENCY PROCEDURES

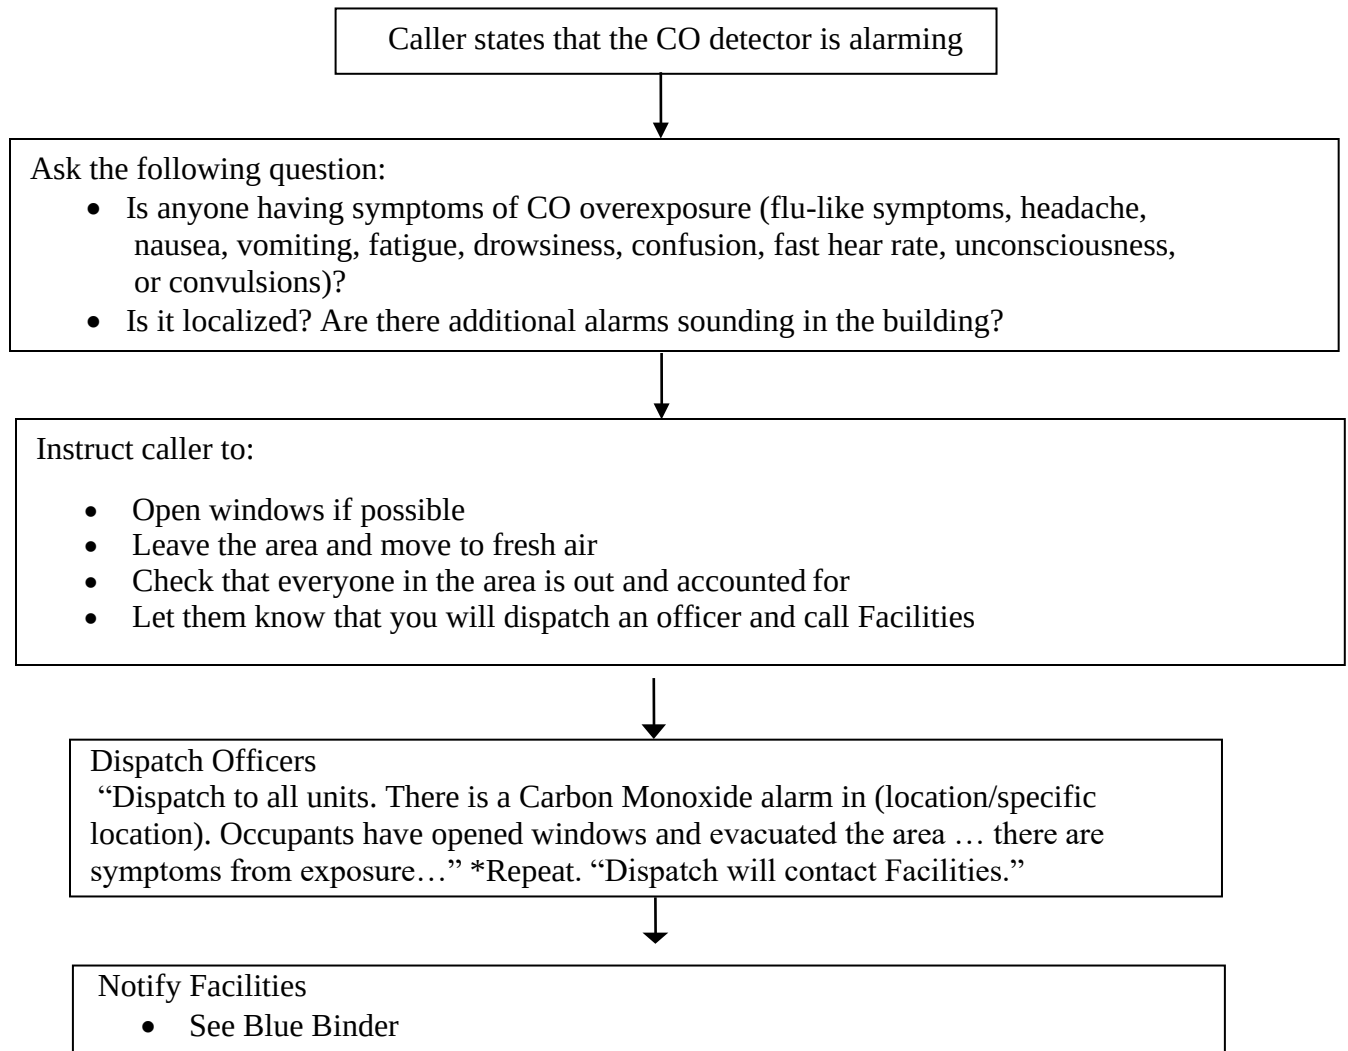

CAMPUS SAFETY DISPATCH HAZARDOUS MATERIAL SPILL RESPONSE PLAN

MOP 7 EMERGENCY PROCEDURES

CAMPUS SAFETY DISPATCH CARBON MONOXIDE ALARM RESPONSE PLAN

MOP 7 EMERGENCY PROCEDURES

MOP 7-16 APP ARMOR EMERGENCY MESSAGING SYSTEM

APP ARMOR Emergency Messaging System is used to send campus-wide alerts via text and email. These alerts are used in emergency (severe weather alert, crime in progress, etc.) and non-emergency (fire alarm all clear, road closure, etc.) situations.

APP ARMOR messages should only be sent out by a dispatcher under the direction of a Supervising Officer. All high-level APP ARMOR messages will be sent out by the Director of Campus Safety or Media Relations.

Sending an APP ARMOR Alert Message

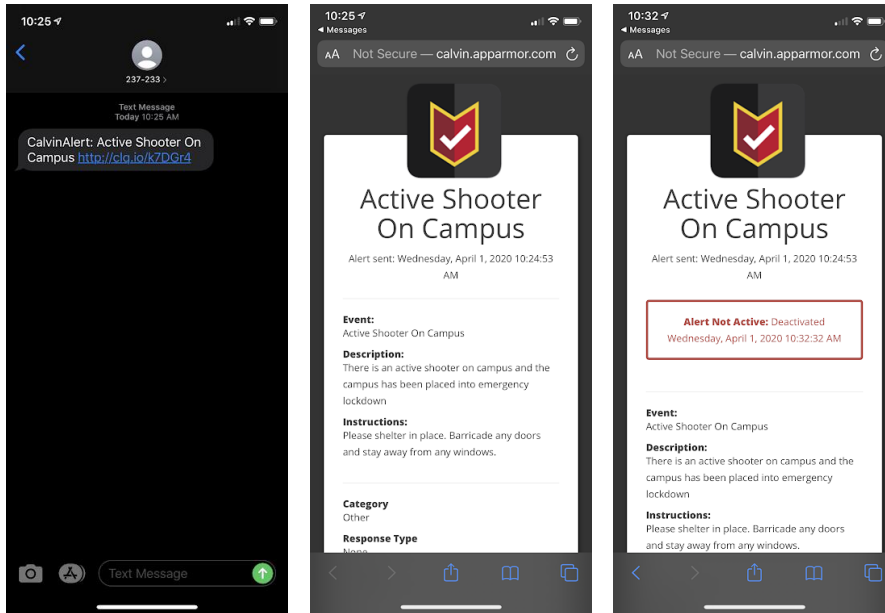

1. Choose the alert template to send
 - On the left, select the “Communications” menu
 - Select “Send Notification”
 - Select the type of notification you are sending (Actual or a Test)
 - Choose an alert template from the drop-down
 - Safety –notifications to the public of general safety advice/notices
 - Meteorological – weather-related events
 - Security – indicating a threat is present and the public is in danger
 - Fire - typically “All Clear” messages
 - Environmental –pollution, air quality, other environmental events
 - Health – medical or public health
 - Transport – roadway or traffic disruptions
 - Infrastructure – utilities
 - Rescue – search and rescue operations
 - Geophysical – landslides, earthquakes, etc.
 - CBRNE – chemical spills
 - Other – everything else

**Note: Selecting a “category” will filter the dropdown box to only that type of notification. If you do not select a “category”, the drop down will show all templates.*
2. Edit alert template as necessary
 - Fill in any variable information for the template. If the template you selected has variable fill-in information, it will appear as a text box asking for that information. For weather, for example, put the expiration time of the alert in the “Value” box. <Next>
 - Preview the message. If needed, changes can be made to the alert on this screen. You can edit the message by selecting the appropriate text box. Click <Next>
 - *Note: In AppArmor alerts, there are 3 boxes for each alert, Event, Description, and Instruction. Think of these alerts as an email – the Event is like the Subject Line and the Description is like the body of the email that explains the event. The Instruction section is meant as a follow-up to the Description. The Description tells you what is happening, and the Instruction tells you what you should be doing about it.*
3. Click send to “EVERYONE”
4. Click <Send>
 - On the next screen that indicates “Ready to Send Notification” do not forget to hit FINISH!

MOP 7 EMERGENCY PROCEDURES

5. Clear “Active” status on “send Notification” once event is over
 - Under the “Communications” window, select “Tracking”
 - Find the alert you just sent at the top of the list and select “View Details”
 - Select “Deactivate Event Now” when the event is over
 - **Note: Even “All Clear” events must be deactivated! They can be deactivated immediately after sending*
6. Example of what it looks like on a phone screen:

MOP 7-17 KNIGHTGUARD MOBILE BLUE LIGHT AND VIRTUAL ESCORT

1. AppArmor / KnightGuard must be LOGGED IN at all times. At the beginning of your shift, please ensure the interface is logged in so that alerts can be received.
2. KnightGuard users can request assistance from dispatch in the following ways:
 - **Mobile Blue Light:** simultaneously triggers a GPS notification in AppArmor and asks user if they want to call the dispatch emergency line, 526-3333. NOTE: If the user does not push the call number, dispatch will not receive a call, and we may need to have an officer follow-up on the GPS location of the caller.
 - **Virtual Safety Escort:** Users first Request an escort that dispatch must accept in AppArmor. Once accepted, they enter their destination and will then be tracked on the Location Map screen.
 - During the “escort” they have the ability to trigger a “panic alarm” and indicate they are in danger during their escort. This will trigger an additional notification and an emergency call, similar to the Mobile Blue Light. If no call is received, dispatch an officer to the location the notification was triggered.

MOP 7 EMERGENCY PROCEDURES

- In the event of multiple requests for assistance, users are color-coded on the map. Under “Active Walks” you will see a list of all active requests for assistance. Double-clicking on the requests will show more information, including the requestor’s name. Next to the active walk, you will see a color bar. That color coordinates with a “pin” on the Location Map. Users will be required to end or clear their escort/blue light for an “Active walk” to be removed from the list. If an “Active walk” is open that should be cleared, double-click on the record, and clear it manually.
- 3. All dispatchers should complete the video training on Computer 2 Monitor 1 during training.
- 4. It is highly recommended that all Dispatchers download the KnightGuard app and test these features while you are working so you can interact with the Location Map and see it in use for yourself. Search for “KnightGuard” in your phone’s apps. It will come up as “KnightGuard Calvin University.”

MOP 7-18 MISSING PERSON

Example: 7-year-old boy attending baseball camp last seen during end of day in lower athletic fields but is missing for pick up from his parents.

- Gather information
 - Last known location and how long ago were they seen?
 - Name, age and sex
 - Head-to-toe description: Clothing, skin tone color, hair/eye color, hat?
 - What locations have already been checked?
- Location where an officer can meet individual(s) reporting the incident
- Advise caller that you are dispatching units to area to assist; please stay on the line.
 - EG: “Dispatch to all units. We have a missing person report for a [7-year-old boy, dark complexion, short black hair, brown eyes, wearing lime green baseball camp t-shirt, black shorts, white cleats, last seen in the lower baseball fields 30 minutes ago]. <Repeat> Dispatch is on the line gathering additional information. Reporting individual [parents] are located...”
- Gather additional information from caller until officers arrive (any other possible locations child may have wandered. Parent’s names, phone number and location? Etc.)
- Review area cameras
- Update CAD with all information gathered from caller and officers
- Notify East GR Police and GRPD when/if advised by Officer

MOP 7 EMERGENCY PROCEDURES

MOP 7-19 SEXUAL ASSAULTS AND SAFER SPACES PROTOCOL

When you receive a call from someone reporting a sexual assault, CONFIDENTIALITY IS OF UTMOST IMPORTANCE. DO NOT communicate with officers by radio. Call their cell phone. This will mean that you have to put the caller on hold (or use your personal cell and put the caller on mute). Make sure you assure the caller that you will be right back with them after dispatching an officer.

But first, gather information:

- Is the individual in a safe location? [If not safe and assault is in progress, immediately get the location and dispatch officers to an “assault in progress at <location>.”]
- First name of individual
- Location where an officer can meet the individual
- Keep caller on the line until an officer arrives

NOTE: If the caller wants to report an assault, but does not want to speak to an officer, refer to the options below under “Safer Spaces.”

Safer Spaces

If Dispatch receives a call regarding harassment, discrimination, or retaliation, report the following information to the supervising officer. Officers will follow-up per Safer Spaces protocol.

1. Date of the complaint/incident
2. Name of caller
3. Phone number of caller
4. Nature/description of complaint/incident

Confidential Reporting: If a caller wants to make a Safer Spaces report (or does not want to speak with an officer), you can refer them to:

- Safer Spaces Reporting Form: <https://calvin.edu/offices-services/safer-spaces/report/> located under the Safer Spaces heading of Calvin’s A-Z directory.
- Confidential reporting line: 616-526-4974.
- Safer Spaces Director: 616-526-6232

MOP 7-20 EMERGENCY WELFARE CHECK & CALLS TO RD ON-CALL NUMBER

Dispatch should follow-up **any emergency involving a student** with a call to the RD On-Call number. For example, during a medical or psychiatric emergency involving a student that is transported to a hospital, the RD on-call needs to be notified via the on-call cell phone. If the on-call RD does not answer, leave a detailed message and record on the CAD. Call the specific dorm RD and advise them that the on-call RD did not answer and give them the situation information and where the student is being transported to. **If you are unable to reach an RD in an emergency, contact one of the Directors or the Dean of Student Life (Jay Wise, Becki Simpson, or John Witte). All numbers are in the Blue Binder.**

MOP 7 EMERGENCY PROCEDURES

MOP 7-21 SWATTING

Swatting is defined as a false report of an ongoing emergency or threat of violence intended to prompt an immediate tactical law enforcement response. Swatting is not a new threat; it has evolved over the last decade or so and includes a range of tactics and techniques used to cause false public alarm and divert law enforcement resources to a hoax threat. Certain incident types and tactics have tended to receive more media coverage than others. Swatting scenarios include bomb threats, active shooter scenarios, threats of an imminent shooting rampage, hostage scenarios, and threats involving chemical, biological, radiological, nuclear, or explosives agents.

The motivations for swatting vary and include the attention gained from national media coverage and discussions on social media or online forums, revenge against gamers or those responsible for previous swatting incidents, and financial gain. Perpetrators post advertisements in online forums and black-market sites offering to conduct swatting for a fee and to boast of their previous swatting successes.

Incidents of swatting across the country are commonly linked, and investigations often lead to groups of perpetrators outside the US. These foreign actors are often contacted and paid to conduct the swatting act by a student at the targeted school or a video game player who provides the name and address or workplace of another gamer against whom they are seeking revenge.

Many incidents involve the targeted location receiving the swatting call, as opposed to reporting the emergency directly to law enforcement agencies, and an anonymous caller using a computerized text-to-speech voice. Swatting incidents in which the caller does not provide a name, and there are no claims of responsibility following the incident, differ from historical cases and indicate a potential shift away from motivations of revenge and recognition.

Indicators: The following are indicators which can be used to identify a potential swatting incident. This is not an exhaustive list, and public and private sector partners are encouraged to contact local law enforcement with lessons learned or success stories of tactics used to dispel a swatting attempt.

- The swatting call is the only incoming call to report an active shooter or ongoing emergency situation. If a shooting has occurred or an active shooter scenario is unfolding, multiple calls to dispatch from witnesses or victims are likely.
- The incoming telephone number is spoofed or blocked. Swatting calls using Voice over Internet Protocol (VoIP) services will appear as all zeros/nines, blocked, unavailable, or one of the default Skype numbers: (661) 748-0240, (661) 748-0241, or (661) 748-0242.
- The swatting call is routed through a non-emergency dispatch line. Swatters using VOIP services cannot dial 9-1-1 directly so instead they look up non-emergency lines of dispatch operations.
- The caller's tone and background noise are inconsistent with the claimed emergency or threat. For example, the caller claims to have murdered a family member, coworkers, or innocent bystanders, yet their demeanor is suspiciously calm, with minimal background noise.

MOP 7 EMERGENCY PROCEDURES

- The caller can be heard typing or clicking a computer mouse in the background. Swatters will conduct internet searches or use online mapping and geospatial tools during the call to answer follow-up questions and provide exterior descriptions of buildings or residences.
- The caller is unable to answer follow-up questions requesting details such as their full name, phone number, or current location. Swatting callers may attempt to provide descriptions of interiors or exteriors of buildings gleaned from photos on social media or internet searches.
- The caller mispronounces names such as city, street, or building names. Swatting calls are commonly conducted by foreign perpetrators with thick accents who are unfamiliar with the local areas they target.
- The caller's story changes or escalates throughout the course of questioning. When challenged by follow-up questions or doubts that their claims are true or legitimate, the swatting caller may intensify their threat or change key details of their story.
- The caller uses specific gun names or terminology to identify their weapon. Swatting callers often refer to weapons commonly depicted in video games, such as an AR-15 assault rifle.
- Gunshots or explosions heard in the background are inconsistent with other noise or sound fake.
- Swatting callers may play recordings of gunshots or live firefights from video games or the internet in order to sound as if they are shooting a weapon while on the call.
- The caller claims to be armed or suicidal and willing to shoot law enforcement.

Mitigation

Swatting calls can be successfully mitigated using follow-up questioning to identify inconsistencies or weaknesses in the caller's storyline or to make the caller feel their attempt is failing. Call receivers should ask multiple questions in quick succession, and repeat questions later in the call to identify inconsistencies. Suggested questions include:

- "What is your full name?" (Ask again later, and specifically ask for a middle name)
- "Where are you calling from?"
- "I need a call back number in case we get disconnected. What is your mobile number?"
- "Why didn't you call 911 directly?" (For VoIP calls to non-emergency dispatch line)
- "Why is there no noise in the background?"
- "What is that noise in the background?" (When noise is inconsistent with story)
- "Why does it sound like you are typing on a computer keyboard?"

If caller claims to be inside or near a building:

- "Which building are you in?"
- "Where are you in the building?"
- "What are you near?"
- "Do you know a student or employee?"

MOP 8 PHONE NUMBERS AND ADDRESSES

MOP 8-1 OFF-CAMPUS EMERGENCY PERSONNEL NUMBERS

Emergency Personnel Needed	Phone Number
Fire, Ambulance, & Police	911
Poison Control Center	1-800-222-1222

For Non-Emergency Requests	Phone Number
Grand Rapids Police Department	456-3400
East Grand Rapids Police Department	949-7010
Kentwood Police Department	698-6580
Kent County Sheriff	336-3113
Michigan State Police	866-4411
Life Ambulance *USED ON OUR CAMPUS	364-8711

Type of Problem	Company/Contractor	Phone Number
Gas leaks	DTE Energy Pipeline Emergency	1-800-947-5000
Electrical	Consumers Energy	1-800-477-5050
Water	City of Grand Rapids	456-3249

Note: For utility emergencies only. Make these calls only if requested by a CSS or on-call maintenance person. (Ex: down power lines, etc.)

MOP 8-2 CALVIN PERSONNEL NUMBERS

Call the following people for the listed problems if no one is available on campus. *Always* contact on-campus Campus Safety personnel or maintenance persons first. This list is only a guide; the phone directory can be used for those numbers not listed.

Security/Fire Emergencies		
William Corner	Director of Campus Safety	616-446-3927
Tyson Moore	Assistant Director of Campus Safety	616-292-3046
Simon Bennett	System Analyst and Physical Security	616-450-2925

Maintenance Problems		
All calls		See Blue Binder
On-Call Maintenance		See Blue Binder

Note: Facilities Department has asked that when we have a power outage, water main break, gas leak, or any other problem that has the potential for affecting multiple buildings or facilities, that we contact the listed on-call person in addition to the persons we normally call or are listed for specific alarms, problems, or emergencies. This will assure that the persons we normally contact or who contact us about any major problem have taken care of everything necessary to continue operations on campus.

MOP 8 PHONE NUMBERS AND ADDRESSES

MOP 8-3 SPECIFIC EMERGENCY PROBLEMS & NUMBERS

Student Problems:

Residence Hall, KE Apartment or Student Problems			
Person	Position	Cell Phone	
John Witte	Dean Resident Life	(616) 540-9634	66546
Becki Simpson	Director of Resident Life	(319) 331-8979	68642
Jay Wise	Director of University Housing	(616) 460-7746	66633
Sara Visser	V.P. of Student Life	(626) 221-0769	66454

Food Service Problems: In case of an emergency on campus relating to power failure or building damage, Dining Services would like to be notified as soon as possible if one of their facilities is located within the effected building.

Dining Service			
Person	Position/Bldg.	Office Phone	Cell Phone
Luis Aljona	Director of Hospitality Operations	(616) 526-8921	(630) 518-8215
Todd Kurtz	Food Service Director	(616) 526-7189	(269) 929-4267
Molly Lyons	Retail Manager (Café)	(616) 526-0108	(616) 915-7173

MOP 8 PHONE NUMBERS AND ADDRESSES

MOP 8-5 GAINNEY ATHLETIC FIELDS

Actual Street Address: 1661 East Paris S.E.

Campus Address: 3895 East Campus Dr.

The Gainney Athletic Fields are located on the far east side of campus, east of the Prince Conference Center along East Paris Ave. **This area of the university is in the city of KENTWOOD.**

Access for emergency responders is best off East Paris Ave., as the campus roadway that comes from the west is gated and only Campus Safety, the Grounds Department, and a select number of Kinesiology faculty and staff have access to open this gate.

Grand Rapids Christian High School (GRCHS) leases most of this area from the university. They have built baseball fields, tennis courts, soccer fields, and a building that houses storage, concessions, and restrooms. GRCHS is considered the primary user of this area.

Calvin University has a softball field with press box in this area, our track, and a cross-country trail that goes through this area.

All calls for fire and police are serviced by the City of Kentwood. When calling 911 be sure to use the correct street address and tell them this is in the City of Kentwood. For calls to the Gainney Field area, the meeting place for emergency vehicles would be the East Paris entrance to Gainney Field.

A blue safety phone is located in the parking area. Remember that all requests for police and fire response must go to Kentwood.

Problems or incidents relating to GRCHS property should be reported to their contact person. Our Campus Safety personnel can respond to assist.

Problems or incidents relating to university owned property should be handled by our Campus Safety Officers.

The gate at the East Paris Entrance is jointly regulated by Calvin University and GRCHS. They are responsible for opening and closings for their activities and the university is responsible for the same for university activities.

Fire Department or Emergency: Call 911, make sure to tell them it is in **Kentwood**

Non-Emergency: Call Kentwood Police at 698-6580

Grand Rapids Christian High School Contact: To let someone at GRCHS know, call Dick Vanderkamp at 862-6445 (cell phone). Leave a detailed message if you get voice mail.

MOP 8 PHONE NUMBERS AND ADDRESSES

MOP 8-6 PERKIN'S HOUSE (aka Ravenswood)

**3222 Lake Drive SE
City of East Grand Rapids**

The Perkin's House is presently vacant. It is located in the city of **East Grand Rapids**. Any fire calls or calls for police to the Perkins House will have to be made to the **City of East Grand Rapids**. When dialing 911 to request police or fire to the Perkin's House be sure to tell the 911 dispatcher that the address is **3222 Lake Drive**, and this is in the **City of East Grand Rapids**.

MOP 8-7 BUNKER INTERPRETIVE CENTER and ECOSYSTEM PRESERVE

1750 E Beltline Ave, City of Grand Rapids

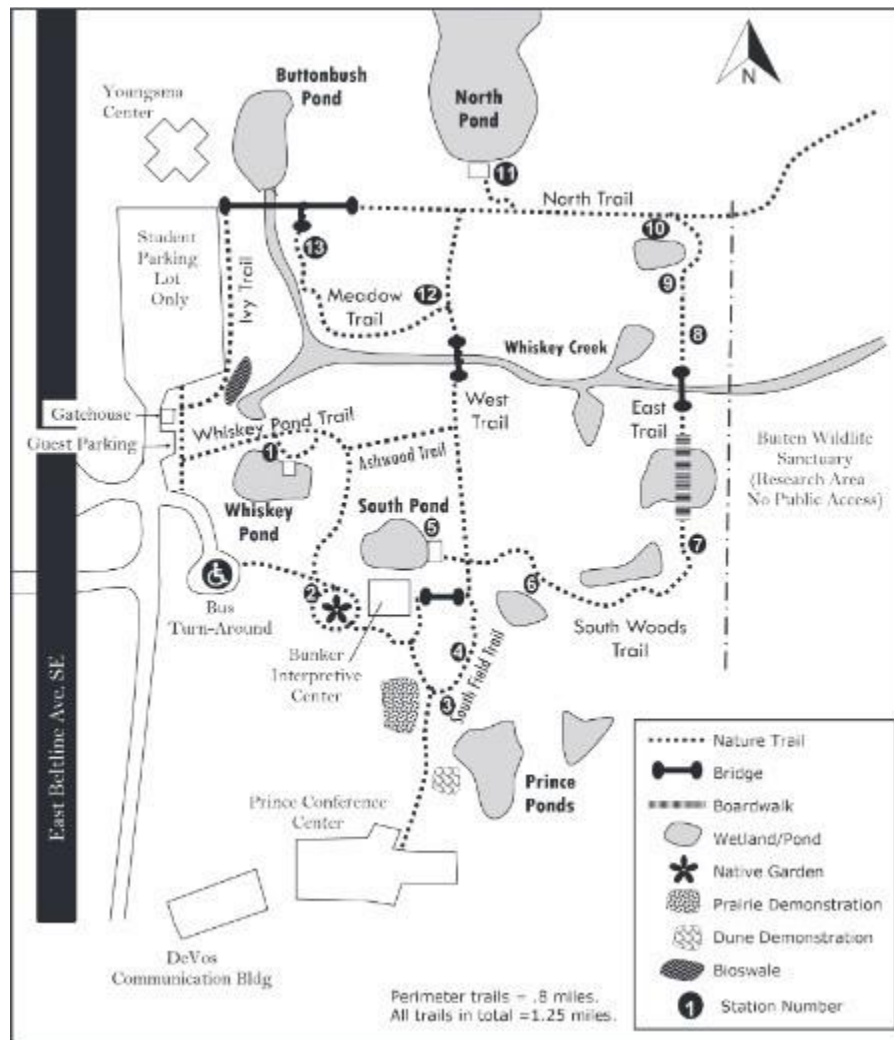

The Bunker Interpretive Center (BIC), Ecosystem Preserve, and Native Gardens is a 100+ acres preserve. This includes a 44-acre trail with 13 ponds that are open to the public, a 60-acre Buiten Wildlife Sanctuary with restricted access used for scientific research, and the BIC used for community educational programs for adults and children, and Calvin University classes. Safety Phone 14 is located along the SE corner of the BIC by the bridge entrance of the walking trails.

The Bunker Interpretive Center is located in the city of **Grand Rapids**. Any fire calls or calls for police to the Bunker Interpretive Center will have to be made to the **Grand Rapids**. When dialing 911 to request police or fire to the Bunker Interpretive Center or the Ecosystem Preserve be sure to tell the 911 dispatcher to have EMS meet Campus Safety at **3201 Burton St. SE** Calvin University main entrance, where officers will escort them in.

The BIC is closed on holidays and weekends. Summer hours May – August they are open Monday through Friday 0830 – 1630, during Spring and Fall they are open Monday through Friday 0900 – 1700. The walking trails of the Ecosystem Preserve and Native Gardens are open year-round to the public between 0700 and dusk.

MOP 8 PHONE NUMBERS AND ADDRESSES

MOP 8-8 WEST MICHIGAN REGIONAL LABORATORY (WMRL) INFO

THIS LAB NO LONGER EXISTS ON CALVIN'S CAMPUS. All references to the WMRL should be deleted.

MOP 9 MAINTENANCE REQUESTS AND EMERGENCIES

MOP 9-1 EMERGENCY MAINTENANCE

For all emergency Facilities-related issues, the Calvin community has been instructed to contact Campus Safety Dispatch at 616-526-6452.

Dispatch: As Facilities contact numbers periodically change, refer to the Blue Binder for the most up-to-date contact information.

MOP 9-2 MAINTENANCE REQUESTS (Work Orders)

Maintenance for Smoke/Fire Trouble Alarms and Smoke Detectors

Alarms in KE apartments and KHvR are hard-wired into our Lenel system and will sound at Dispatch when triggered. Smoke detectors in other dorms are stand-alone. Dispatch will only know about issues with these if we get a phone call. "Total Fire" is the contractor that services alarms that our Facilities Department are unable to fix.

Protocol for Smoke/Fire Trouble Alarms

1. Follow dispatch protocol for all active alarms.
2. If maintenance is required, submit maintenance ticket using online form at Dispatch. See MOP 9-5.

University Maintenance

As contact numbers periodically change, refer to the Blue Binder for the most up-to-date Facilities contact information.

Responding to Maintenance Requests Based on Degree of Priority

1. Priority 1: **Emergency issue** - Flooding, trees down blocking the road, gas leak, power outage, broken exterior windows, wild creature in building, a water main break, major HVAC issues, etc.
 - Call one of the Facilities emergency contacts in the Blue Binder
 - Dispatch officer if circumstance is a safety concern
2. Priority 2: Non-emergency **safety issues** such as smoke detector replacement, parking lot light out, slow leak in building reported by faculty, broken sprinkler head, etc.
 - Submit an online work request
3. Priority 3: Non-emergency, **non-safety issues** such as clogged toilet, broken dorm door, etc.
 - Instruct requestor to submit an online work request ticket themselves.

MOP 9-3 FOOD SERVICES MAINTENANCE REQUEST

Determine priority level and follow similar protocol as University Maintenance.

MOP 9 MAINTENANCE REQUESTS AND EMERGENCIES

MOP 9-4 SEMINARY AND SEMINARY HOUSING MAINTENANCE

Calvin University Facilities does not provide primary maintenance at the Seminary Housing units. **If there is any problem at the SEMINARY, please use numbers below:**

The Seminary Building

The Seminary Plant Director is **Jack Phillips** at cell phone 616-485-9838.

Seminary Housing Units

Tim Bruinsma – Seminary Housing - X-78618 or cell phone at 616-318-1924. Units are:

3501 Burton St.	Bavink Hall
3511 Burton St.	Kuiper Hall
3521 Burton St.	Berkhof Hall
3545 Burton St.	Sigma Hall
3555 Burton St.	Omega Hall

Two Apartment complexes off campus on Englewood St SE and on Batchawana St SE

Any daytime calls (Monday - Friday) for maintenance to these housing units should be directed to Tim Bruinsma. Any **after-hours or weekend** calls for housing maintenance should be directed to: **TIM BRUINSMA** by cell phone 616-318-1924.

The residents of the Seminary Housing units are supposed to know who to contact and are supposed to make calls to the above listed person(s) on their own. This is information to pass on if someone calls requesting maintenance at one of the above seminary units. We may have to contact Jack Phillips as a last resort.

MOP 9-5 UNIVERSITY WORK ORDERS – Non-Emergency (Keystone is contractor)

Facilities Work Orders

Facilities Work Request are used for building and property mechanical/electrical/plumbing and custodial problems i.e. non-emergency toilet overflowing, walkway light out, etc.

All work orders, including non-emergency fire/smoke alarms and mechanical door issues should be submitted via the online form at Dispatch.

If the issue requires immediate attention, use the emergency contact procedures in MOP 9-1.

Upon submission of a work order/ticket, Dispatch will receive a confirmation email, notifying us of the work order number and that it has been received. Upon completion of the work order, Dispatch will get an email notifying us of the work order number and that it has been completed.

MOP 9 MAINTENANCE REQUESTS AND EMERGENCIES

CIT Work Orders

CIT work orders are entered on the CIT website as 'Help Tickets'. CIT work orders are used for **computer, telephone, and/or fire panel problems that specifically say 'Phone Line Trouble' or 'Telco Line Fault'** (i.e. blue safety phone not working, fire panel trouble phone line 1/Telco Line Fault 2, or if all computer networks down)

1. Click 'Information Technology' in the A – Z directory then click 'Submit a Request'
2. Log in with your Calvin ID and password (same as your email information)
3. On the Service Catalog page click 'Home' in the top left corner
4. Click 'Get Help'
6. Fill in necessary information:
 - a. 'What services are you having trouble with?' (i.e. SFC fire panel phone line alarm, Safety Phone 10, any phone line issue...)
 - b. 'Is this something that has happened recently?' (No information needed here)
 - c. 'Give us a description of what you are experiencing' (i.e. SFC fire panel is beeping and showing a trouble alarm for phone line 1, Safety phone 10 in the Seminary lot 11 is not going through to the emergency line into dispatch ...)
 - d. 'Please select your desired communication method' (Select 'Email')
 - e. 'Who is this issue effecting?' (i.e. Fire Panel = University, Blue Safety Phone = Department ...)
 - f. 'What is the urgency of the issue?' (Select 'Medium')
 - g. Click 'Submit'
7. Update whiteboard with building/door location and brief description of issue, and the work request number (i.e. CIT 20093)

Card Reader Work Orders to 9902

Work orders needed for the Card Access system and other Door issues are directed to 9902. This includes Card Readers not working properly and false door held open or active alarms.

1. When the officer notifies you of the card reader issue or if the door is found to be secure but showing a held open alarm still, get the specific location information to pass on to 9902.
2. Send 9902 an email describing the issue from the Dispatch email with your name addressed in case follow-up questions are necessary.
 - a. Write the date, location, and a checkmark noting that 9902 was notified on the small whiteboard. 9902 will erase the work order when it is completed.

MOP 9-6 SNOW REMOVAL/ICY CONDITIONS/GROUNDS-RELATED ISSUES

Snow removal is handled by the Facilities Grounds Department. Refer to the Facilities tab for regular hour snow removal or icy conditions, and call Scott Machiela (616-291-9016) for weather-related issues after normal business hours.

MOP 10 TROUBLE-SHOOTING AND MISCELLANEOUS

MOP 10-1 LENEL BUILDING AND MAP ALARMS

Align Alarm and Map Windows:

1. If only the Main alarm window is showing then click 'View', select 'Pending Alarms'
 - Click 'Window' and select 'Main Alarm Monitor', a check mark will appear to the left then click 'Tile Vertically'

Transfer a Building Map to the Other Monitor:

1. To pull up a building map select 'View' then 'Map Selection' and highlight the desired building and floor from the list, then press 'OK'. Or click the arrow next to the map icon and select from the drop-down menu.
2. If the map window does not transfer to the other monitor, click on the map icon (top left of window next to map name) and click 'Floating Mode' from the drop-down menu.

MOP 10-2 TROUBLE-SHOOTING COMPUTER MOUSE

Resetting a mouse that loses connection to a computer:

1. When the mouse does not appear on the computer selected on the switch it has lost connection to that computer. Turn the mouse over and check that the red light is out
2. Change the computer on the switch and check each computer to make sure connectivity was not lost with all of them, then switch back to the original computer
3. To re-gain connectivity to the mouse, the computer needs to be shutdown. Force a shutdown by holding the power button on the specific computer.
 - a) If the affected computer runs an alarm program (Lenel Fire or Building/Map), then the program's alarm history needs to be reviewed for any missed alarms during the times it was down.
 - b) If the affected computer runs the Radio system, then the hand-held radio needs to be turned on and set to the Campus Safety channel during the time it was down.

MOP 10-3 TROUBLE-SHOOTING RADIO ISSUES

Radio Microphone Does Not Transmit

If the Dispatch microphone does not transmit over the radio, first check if the 'Mute' button is on (flashing red light means the microphone is on mute, solid red light means it is not)

MOP 10 TROUBLE-SHOOTING AND MISCELLANEOUS

MOP 10-4 TROUBLE-SHOOTING AVIGILON CAMERAS

- Rebooting cameras on Computer 1 Monitor 3 requires double-clicking on each of the six views to open the camera views.
- Rebooting cameras on Computer 2 Monitor 3 typically opens each of the six views automatically.

MOP 10-5 “CALL” PROGRAM

Calvin Academy for Lifelong Learning (CALL) offers a wide variety of intellectually stimulating, non-credit courses and learning opportunities designed for adults of all ages. Since there are no exams or homework, CALL members participate in courses solely for the joy of learning.

In addition to courses, members have opportunities to join lectures, events, and travel opportunities. CALL has exclusive member discounts based on partnerships with several performing arts companies in the Grand Rapids area.

Note: CALL members receive a parking tag that they can display while taking classes.

MOP 10-6 WOODLAWN CHURCH

Woodlawn CRC’s Ministry Center is located across Burton from Calvin’s main entrance at 3190 Burton St SE. Their Sunday Services are held in Calvin’s Chapel, which also may require occasional let ins for practices and activities throughout the week.

MOP 10-7 CPI (CALVIN PRISON INITIATIVE)

A partnership between Calvin University and Calvin Theological Seminary, the Calvin Prison Initiative (CPI) is a unique program that provides a Christian liberal arts education to inmates at the Richard A. Handlon Correctional Facility in Ionia, MI. This five-year program results in a Bachelor of Arts degree from Calvin University in Faith and Community Leadership.

MOP 10-8 PDF’s OF BUILDING FLOORPLANS

Buildings floorplans for rooms **with card reader doors** are all tied into the Lenel alarm/map system. Floorplans of floors without card readers are available in PDF format in CAD. To access floor plans :

1. Enter a building into the yellow “location” field in a blank CAD window (EG: “SC” for Spoelhof University Center).
2. At the end of the yellow line there is a small icon that looks like a document. Each of the floors for the chosen building are available here.

MOP 10 TROUBLE-SHOOTING AND MISCELLANEOUS

MOP 10-9 TROUBLE-SHOOTING CELL PHONE

- When using the dispatch cell phone for a 10-100, call it first from your personal cell to make sure that it is connected to the Jabber app and to Calvin's Eduroam WiFi. If it does not pick up your attempted call, you will need to reconnect it to the WiFi before going 10-100 or have an officer monitor the phones while you are 10-100.

MOP 10-10 PERMANENT/FREQUENT CONTRACTORS/VENDORS

- Creative Dining
- Total Fire (Fire Alarm Maintenance)
- Follett (Bookstore)
- WASH Laundry
- Pepsi

MOP 10-11 OFF CAMPUS ACTIVITIES OR REQUESTS

Campus Safety officers do not have jurisdiction off campus. Examples of calls that they cannot assist with:

- Request by students living in off-campus housing, including Project Neighborhood houses.
- Motorist Assist on roadways not adjacent to campus

Exception:

- Motor-vehicle assist on roadways immediately adjacent to campus (Buton, Lake Drive, and the East Beltline).
- Officers monitor residential streets adjacent to campus. If a community member (neighbor) calls dispatch regarding students parking on Hampshire or Morningside, officers may ticket these vehicles if they are Calvin students and do not live on one of these streets.

MOP 10 TROUBLE-SHOOTING AND MISCELLANEOUS

APPENDIX 1

Parking FAQs

- 1) **I have a vehicle registered, but I am driving a different car today. What should I do? May I park in a visitor space?**

Answer: Visitor spaces are **ONLY** for visitors. Students are never allowed to park in the visitor spaces. If someone brings a non-registered vehicle to campus (not their registered vehicle), they need to stop by the Campus Safety Department and pick up a temporary hang tag. **There is no charge for the hang tag IF they already have a vehicle registered with us.**

- 2) **If a student bought a car over the weekend and we aren't open, how can they make sure not to get a ticket.**

If the student brought an unregistered vehicle to campus over the weekend when we are not open that they plan on keeping here, they should register online at <https://calvin.thepermitstore.com> and then stop in at the office on Monday to pick up the permit. They must be parked in an overnight lot!

- 3) **I don't have a vehicle registered, but my parents are letting me use their vehicle while they are out of town. What do I need to do?**

Answer: The student needs to register for a daily or weekly permit online at <https://calvin.thepermitstore.com>. A temporary hang tag costs **\$2.50/day**. They can print the permit from their computer and display the permit on their windshield.

Note: If a student brings a non-registered vehicle to campus on Friday evening and it will be gone by first thing Monday morning, they will not need a permit. However, they **MUST** be parked in an overnight lot, or the vehicle will be ticketed.

- 4) **I am a commuter. May I park in KE to visit a friend?**

Answer: Commuters are allowed to park in any of the lots around campus unless marked by specific signage (staff parking, service vehicle parking, etc.). If a commuter student is staying past 2 am, they **MUST** be parked in an overnight lot (Lots 8, 13, 14, 15, 16, and Lots 17, 18, 19, 20).

- 5) **I am a guest staying on campus. Where do I park?**

Answer: Same as above. Guests are allowed to park in any of the lots around campus up until 2 am. Guests must also park in overnight lots if staying past 2 am. Good advice would be to instruct them to park in the PC/DeVos Lot, or Lot 8.

- 6) **Where is a free lot for parking that I won't need a permit because I only have one class?**

Answer: There are no free lots around campus. All students are required to have a parking permit no matter how many credits they are taking.

MOP 10 TROUBLE-SHOOTING AND MISCELLANEOUS

7) I sprained my ankle. May I park in a handicapped spot?

Answer: No. Handicapped spaces are regulated by the state and require a handicapped hang tag only given out by the Secretary of State's office. If living on campus, they can keep their vehicle parked in their regular lot and ask for a blue escort to their vehicle or from their vehicle. If they live off campus, they should talk to the Campus Safety front desk about possible special arrangements that may be needed.

8) I am flying home for Christmas. May I leave my car at Calvin?

Answer: Yes, as long as the vehicle is registered with us. All vehicles must be parked in **LOT 13** over the break except for those living at Knollcrest East. Lot 8 needs to be completely cleared out over Christmas break. If someone is going to be gone for Christmas and over all of interim, they must still park in LOT 13 even if this isn't usually their correct lot.

9) I live off campus and we are not allowed to park on the street during the winter months. May I leave my vehicle at Calvin?

Answer: Yes, as long as your vehicle has a current commuter parking permit on it, you can park in Lot 8 during the winter months.

10) I am too sick to move my vehicle. What should I do?

Answer: If the student has been taken to the hospital, place the vehicle on the disabled list. If the student just isn't feeling well and lives on campus, we can give them an escort back from the parking lot and have them ask a friend to move their vehicle for them. If they live off campus, the vehicle should be moved to an overnight lot before their friend drives them home.

11) I took a different vehicle to campus, but I have class now and cannot come in for a temporary hang tag. What should I do?

Answer: Our office is open at 7:50am, so they should have time to stop in ahead of time if they have an 8:00 am class. Unless there are extenuating circumstances, students cannot call in the "day of" and request a temporary hang tag or say, "I am coming in after class". They will still be at risk of getting a ticket.

12) The weather is too bad, so I don't feel safe driving home. May I leave my vehicle here and pick it up in the morning.

Answer: You may leave your vehicle on campus, but it must be moved to a lot that allows for overnight parking (Lot 8, 13, KE or DeVos area). Note: If the weather is bad because of snow, we definitely need to plow all the non-overnight lots, so it is even more important for them to move their vehicle.

13) My sibling and I share a vehicle. How do we register? My sibling is going to be gone for interim and is letting me use their vehicle. What do I need to do?

Answer: Discuss the situation with the front desk during business hours and they will come up with a solution.

MOP 10 TROUBLE-SHOOTING AND MISCELLANEOUS

14) I am a guest of the RD. Where should I park?

Answer: If guests are visiting the RD, they can park next to the RD spot, but take down the make, model, and license plate number of the vehicle and inform the nighttime officers that the vehicle should not be ticketed. Find out how long the vehicle will be there.

15) I am a guest attending an event on campus. Where should I park?

Answer: If the guest is attending a sporting event, concert, January Series lecture, etc. they are able to park in any available spot without a permit (unless the spot is reserved for specific purpose such as service vehicle only, etc.). We do not ticket during any large events.

16) My friend is driving my vehicle and lives off campus, but I live on campus. What should they do?

Answer: Whoever registered the vehicle is responsible for all tickets on the vehicle, so the color of the permit is valid no matter who is driving it. If you need to make special arrangements to overrule the rules that apply to a certain colored permit, you will need to contact the Campus Safety front desk to work out a solution.

17) I am getting my windshield replaced. What happens with my permit?

Answer: **Students** - If your permit is no longer on your vehicle, you will need a replacement permit. Stop by the Campus Safety Department. **Staff/faculty** – Transfer your permit to your new windshield.

18) I got a new vehicle and was able to move my old permit to my new vehicle. Is this ok?

Answer: **No for students.** Permits are not transferrable from one vehicle to another. If you are going to be using this vehicle for a short period of time, you should stop by to get a temporary hang tag. If you are going to be using the vehicle long term, such as throughout the winter, you can register the second vehicle online under the second permit option for \$10.00. The permit request will be reviewed but should be granted the same day (or following business day if after hours).

Yes, for staff/faculty. Staff/faculty permits are transferrable. Staff/faculty permits are associated to a person and not a specific vehicle, so we do not need to know any specific vehicle information.

19) I am a staff/faculty member and forgot to transfer my vinyl cling permit to the car that I am using today. Should I park in visitors parking since I don't have a permit.

Answer: No. Faculty and staff members should park where they normally park. Take down their vehicle information (make, model, color and license plate if they have it) and ask where they are parked or where they plan on parking. The information can be placed in the Temp/Disabled log. If this will be an issue for more than one day, they should stop by the Campus Safety office to pick up a temporary hang tag.
